Brenda L. Wichmann, Botanist

North Carolina Natural Heritage Program
N.C. Department of Natural and Cultural Resources
Raleigh, NC 27699-1601

www.ncnhp.org

This list is dynamic and is revised every other year as new data become available. New species are added to the list, and others are dropped from the list as appropriate. Further information may be obtained by contacting the North Carolina Natural Heritage Program, Department of Natural and Cultural Resources, 1651 MSC, Raleigh, NC 27699-1651; by contacting the North Carolina Wildlife Resources Commission, 1701 MSC, Raleigh, NC 27699-1701; or by contacting the North Carolina Plant Conservation Program, Department of Agriculture and Consumer Services, 1060 MSC, Raleigh, NC 27699-1060. Additional information on rare species, as well as a digital version of this list, can be obtained from the Natural Heritage Program's website at www.ncnhp.org.

ACKNOWLEDGMENTS

This list was originally compiled and published by Alan Weakley in 1991. It has been revised and updated over the years by Alan Weakley, Jame Amoroso, Misty Franklin Buchanan, Laura Gadd Robinson, and Brenda L. Wichmann. Special thanks are given to Misty Buchanan, Wesley Knapp, Richard LeBlond, Michael Lee, Harry LeGrand, Suzanne Mason, Linda Rudd, Michael Schafale, Bruce Sorrie, and Alan Weakley for their involvement in the development of the list, to Jame Amoroso, Blanka Aguero, and Paul Davison for assistance with the bryophyte lists, and Gary Perlmutter for assistance with the lichen list.

The list of people who have assisted in the preparation of the vascular plant list, provided information to the NCNHP on rare species occurrences, or otherwise contributed to our understanding of the rare flora of the state are too many to mention, but a partial list of recent contributors includes: Nell Allen, Herb Amyx, Pat Amyx, Geoff Austin, Rex Badgett, Chris Baranski, Moni Bates, Brady Beck, Sean Bloom, Alvin Braswell, Ben Brewer, Ken Bridle, Kevin Caldwell, David Campbell, Angie Carl, Owen Carson, Logan Clark, Crystal Cockman, Ed Corey, Olivia Dannemiller, Becky Dill, Jamey Donaldson, David Dumond, Bryan England, Matt Estep, Rob Evans, Laura Fogo, Sam Fritz, Sue Fruchey, John Fussell, Lisa Gaffney, Jeff Glitzenstein, Cheryl Gregory, Tom Govus, Janet Gray, Steve Hall, Karin Heiman, Jonathan Horton, Stephanie Horton, Tom Howard, Kimberly Israel, Alicia Jackson, Andrew Jenkins, Claudia Jolls, Gary Kauffman, Josh Kelly, Lisa Kelly, Jay Kranyik, Alexander Krings, Mike Kunz, Lenny Lampel, Ron Lance, Charles Lawson, Richard LeBlond, Kira Lideloff, Merrill Lynch, Jeff Marcus, Jim Matthews, David McAdoo, Carol Ann McCormick, Hervey McIver, Patrick McMillan, Rachel Milkereit, William Moye, Carl Nordman, Shawn Oakley, James Padgett, Cary Paynter, Bob Peet, Mark Peifer, Bubba Peifer, Dan Pittillo, Derick Poindexter, Gerald Pottern, Ben Pugh, April Punsalan, Milo Pyne, Lloyd Raleigh, Johnny Randall, Duke Rankin, Evan Raskin, Rebekah Reid, Jerry Reynolds, Jessica Roach, Mark Rose, Tim Savidge, Jess Schaner, Ed Schwartzman, John Shaw, Chris Sheats, Dale Shew, Roger Shew, David Siripoonsup, Alan Smith, Matt Smith, Jennifer Stanley, Lesley Starke, Dale Suiter, Megan Sutton, John Taggart, Craig Ten Brink, Samantha Tessel, Robert Thornhill, Mike Turner, Julie Tuttle, Chris Ulrey, Eric Ungberg, Andy Walker, Wade Wall, Danny Walsh, Bobby Ward, Tom Wentworth, Rickie White, Chris Wilson, and participants in the Carolina Vegetation Survey.

Special recognition is given to Tom Patrick, who was the Georgia Natural Heritage Program's first Botanist and contributed greatly for 33 years to plant conservation and the larger Natural Heritage network. He mentored many North Carolina botanists and provided information about habitat and distribution of rare species that occur in both Georgia and North Carolina.

NORTH CAROLINA PLANT LIST – RARE

INTRODUCTION

The North Carolina Natural Heritage Program (NCNHP) conducts and maintains an inventory of known locations of rare animals and plants in the state as part of its mission to support conservation of natural areas. The primary functions of this inventory list are its use 1) in determining priorities for protection of the state's most important natural areas and the plants and animals contained therein, 2) in determining priorities for inventory, and 3) by public agencies and private persons for environmental assessment and land management planning.

The NCNHP is charged under the Nature Preserves Act (G.S. 143B-135.250 to 143B-135.272) with compiling and maintaining information relevant to the protection of North Carolina's most important natural areas. NCNHP takes the lead role in North Carolina in the inventory of the state's natural diversity and the identification of important natural areas and rare species habitats. The list incorporates the most recent federal status designations determined by the U.S. Fish and Wildlife Service (USFWS) for all animal and plant taxa native to North Carolina. Prior to 2018, NCNHP included Federal Species of Concern (FSC) as a federal status. The FSC list was collectively maintained by the North Carolina offices of the USFWS, but FSC is not an official federal status. Under the guidance of the USFWS Region 4 office, the Raleigh Ecological Services office has revised their focus toward At-Risk Species and as such the NCNHP no longer reports FSC as a federal status. The At-Risk Species list is a dynamic list that includes species proposed for listing under the ESA, Candidate species, and species that have been petitioned for listing. Please refer to the At-Risk Species Finder at <https://www.fws.gov/southeast/finder/#/species/list> for more information.

This list also includes North Carolina legal status information from the N.C. Plant Conservation Program (NCPCP), a unit of the Department of Agriculture and Consumer Services and the agency responsible for the listing and protection of North Carolina's endangered and threatened plants, under provisions of the North Carolina Plant Protection and Conservation Act (N.C. General Statutes - Chapter 106 Article 19B). The NCPCP *List of North Carolina's Endangered, Threatened and Special Concern Plant Species* can be found on the website: <http://www.ncagr.gov/plantindustry/plant/plantconserve/>. NCWRC is responsible for the listing and protection of the state's nongame species of mammals, birds, reptiles, amphibians, freshwater fishes, mollusks, and crustaceans, under N.C. General Statutes - Chapter 113 Article 25. The NCNHP, NCPCP, NCWRC, and USFWS work cooperatively to ensure the continued survival of all of North Carolina's rich flora and fauna. Over the past 40 years and continuing in the future, the advice and protection designations (for example, Endangered, Threatened, and Special Concern) of scientific councils and committees have been considered in the creation of the list.

Many species that lack formal legal protection are nonetheless imperiled in North Carolina. Therefore, NCNHP collects data on these species in addition to those classified under the three protection designations above and places them in two categories: Significantly Rare (SR) and Watch List (W). These species receive no special legal protection; rather, the designation is used to convey information about the species' rarity within the state. The tracking of SR species, along with Endangered, Threatened, and Special Concern species, plays a critical role in how NCNHP evaluates natural areas for their importance in conservation of the state's native biodiversity. These status categories are defined in this list under "N.C. Status."

NCNHP requests locality and population data on the species listed in this publication. Plant survey forms are provided online at <https://www.ncnhp.org/share-data/contribute-your-data/plant-survey-form>. People may complete the online survey form or, if preferred, download the form and email completed forms to natural.heritage@ncdcr.gov or mail to: N.C. Natural Heritage Program; MSC 1651; Raleigh, NC 27699-1651. For the most current information about the range of tracked species in North Carolina, visit www.ncnhp.org. Information, including maps and datasets, on animals, plants, and communities nationwide may be found on NatureServe Explorer (www.natureserve.org/).

**EXPLANATION OF STATUS AND RANK CODES
FOR PLANTS**

Status Codes

In North Carolina, Endangered, Threatened, and Special Concern species have legally protected status through the North Carolina Plant Conservation Program (NCPCP). The Natural Heritage Program maintains database and GIS files on state listed and Significantly Rare species, as well as species considered extirpated in the state. United States Status is designated by the U.S. Fish and Wildlife Service (USFWS) and the U.S. National Marine Fisheries Service (USNMFS) in accordance with the U.S. Endangered Species Act of 1973 (USESA), as amended. Plants and plant varieties (including fungi, hornworts, lichens, mosses), animal species and subspecies, and vertebrate populations are considered for Endangered or Threatened status according to the criteria established under the USESA. Proposals and determinations to add taxa or populations to the Lists of Endangered and Threatened Wildlife and plants are published in the Federal Register. Additionally, the USFWS and the USNMFS periodically publish a Notice of Review or Notice of Reclassification in the Federal Register that presents an updated list of plant and animal taxa that are regarded as candidates or proposed for possible addition to the Lists of Endangered and Threatened Wildlife and Plants. Contact the Asheville or Raleigh Ecological Services Field Offices for more information.

N.C. STATUS – PLANTS

N.C. STATUS CODE	STATUS	DEFINITION
E	Endangered	Any native or once-native species or higher taxon of plant whose continued existence as a viable component of the state's flora is determined to be in jeopardy or any species of plant determined to be an Endangered species pursuant to the Endangered Species Act. (GS19B-106:202.12.)
T	Threatened	Any native or once-native resident species of plant which is likely to become an endangered species within the foreseeable future throughout all or a significant portion of its range, or one that is designated as a Threatened species pursuant to the Endangered Species Act. (GS19B-106:202.12.)
SC-V	Special Concern- Vulnerable	Any species or higher taxon of plant which is likely to become a threatened species within the foreseeable future. (NCAC 02 NCAC 48F .0401.)
SC-H	Special Concern- Historical	Any species or higher taxon of plant that occurred in North Carolina at one time, but for which all known populations are currently considered to be either historical or extirpated. (NCAC 02 NCAC 48F .0401)
SR	Significantly Rare	This is a NCNHP designation. Any species which has not been listed by the NCPCP as an Endangered, Threatened, or Special Concern species, but which exists in the state (or once occurred in the state) in small numbers (generally less than 100 statewide populations) and has been determined by the NCNHP to need monitoring. Significantly Rare species include species of historical occurrence with some likelihood of rediscovery in the state and species substantially reduced in numbers by habitat destruction, direct exploitation, or disease. Species considered extirpated in the state, with little likelihood of rediscovery, are given no N.C. status.

N.C. STATUS CODE	STATUS	DEFINITION
SR-L	Significantly Rare-Limited	The range of the species is limited to North Carolina and adjacent states (endemic or near endemic). These are species that may have 20-50 populations in North Carolina, but generally fewer than 100 populations range wide. The preponderance of their distribution is in North Carolina and their fate depends largely on conservation here.
SR-T	Significantly Rare-Throughout	The species is rare throughout its range (generally fewer than 100 populations range wide).
SR-D	Significantly Rare-Disjunct	The species is disjunct to North Carolina from a main range in a different part of the country or world.
SR-P	Significantly Rare-Peripheral	The species is at the periphery of its range in North Carolina. These species are generally more common elsewhere, occurring in North Carolina peripherally to their main ranges, often in habitats that are unusual in North Carolina.
SR-O	Significantly Rare-Other	The range of the species is sporadic or cannot be described by the other Significantly Rare categories.
WL	Watch List	This is an NCNHP designation for any other species believed to be rare and of conservation concern in the state but not warranting active monitoring at this time.

U.S. STATUS – PLANTS

U.S. STATUS CODE	STATUS	DEFINITION
E	Endangered	A taxon that is in danger of extinction throughout all or a significant portion of its range (Public Law 93-205 87 Stat. 884).
T	Threatened	A taxon that is likely to become an endangered species within the foreseeable future throughout all or a significant portion of its range (Public Law 93-205 87 Stat. 884).
C	Candidate	Taxa for which the USFWS has on file enough substantial information on biological vulnerability and threat(s) to support proposals to list them as endangered or threatened. Proposed rules have not yet been issued because this action is precluded at present by other listing activity. Development and publication of proposed rules on these taxa are anticipated. The USFWS encourages state and other federal agencies as well as other affected parties to give consideration to these taxa in environmental planning [Federal Register, 5 December 1996 Volume 61(235):64481]. Taxa formerly considered “Category 1” are now considered “Candidate.”

Rank Codes

Natural Heritage Programs and the NatureServe Network have developed a consistent method for evaluating the relative imperilment of both species and ecological communities. These assessments led to the designation of a conservation rank. These ranks provide an estimate of extinction risk. Conservation rank values have been assigned over the past 40 years by the NCNHP, NatureServe, and many collaborators in government agencies, universities, natural history museums, botanical gardens, and other conservation organizations. This information has been developed primarily to help in guiding conservation and informing environmental planning and management.

Conservation ranks are either state (S) or global (G) and are based on a one-to-five scale, ranging from critically imperiled (S1 or G1) to demonstrably secure (S5 or G5). These assessments are based on the best available information, considering a variety of factors such as abundance, distribution, population trends, and threats. Global ranks apply to the species throughout its range. The system is widely used by agencies and organizations nationwide as the best available scientific and objective assessment of a species' imperilment throughout its range.

A rank involving two numbers indicates uncertainty. For example, an S2S3 or a G2G3 rank indicates that the species may be S2 or S3 (or G2 or G3), but that existing data do not allow that determination to be made.

N.C. RANK – PLANTS

N.C. RANK	NUMBER OF EXTANT POPULATIONS	DESIGNATION	DESCRIPTION
S1	1-5	Critically Imperiled	Critically imperiled due to extreme rarity or some factor(s) making it especially vulnerable to extirpation (local extinction) from the state. Typically 5 or fewer occurrences or very few remaining individuals (<1,000).
S2	6-20	Imperiled	Imperiled due to rarity or some factor(s) making it very vulnerable to extirpation from the state. Typically 6 to 20 occurrences or few remaining individuals (1,000 to 3,000).
S3	21-100	Vulnerable	Vulnerable to extinction either because rare or uncommon, found only in a restricted range (even if abundant at some locations), or due to other factors making it vulnerable to extirpation. Typically 21 to 100 occurrences or between 3,000 to 10,000 individuals.
S4	101-1,000	Apparently Secure	Apparently secure and widespread, usually with more than 100 occurrences and more than 10,000 individuals.
S5	1,001+	Secure	Common, widespread, and abundant. Essentially ineradicable under present conditions. Typically with considerably more than 100 occurrences and more than 10,000 individuals.

N.C. RANK	NUMBER OF EXTANT POPULATIONS	DESIGNATION	DESCRIPTION
SH	0?	Historical	Possibly extirpated; known from only historical records but still some expectation of rediscovery. Presence may not have been verified in the past 20-40 years. <i>Note:</i> an element is not automatically assigned an SH rank if it has not been verified in the past 20; some effort must have been made to locate or relocate occurrences before a rank of SH is assigned.
SX	0	Presumed Extirpated	Believed to be extirpated; has not been located despite intensive searches of historical sites and other appropriate habitat, and virtually no likelihood that it will be rediscovered.
SU	Unknown	Unrankable	Currently unrankable due to lack of information or substantially conflicting information about status or trends. More information is needed.
SNR	Unknown	Not Ranked	Statewide rank not yet assessed.
SNA	N/A	Not Applicable	Statewide rank is not applicable because the element is not a suitable target for conservation for one of these reasons: <ul style="list-style-type: none"> • Hybrid – an interspecific hybrid without conservation value; • Exotic Origin – not native to North Carolina; • Accidental/Nonregular – outside usual range and not regularly found in North Carolina; • Not Confidently Present – never documented as present in NC; • Synonym – the taxon is not recognized by the NCNHP.
S_?	---	Uncertain	Denotes inexact or uncertain numeric rank.

GLOBAL RANK - PLANTS

GLOBAL RANK	NUMBER OF EXTANT POPULATIONS	DESIGNATION	DESCRIPTION
G1	1-5	Critically Imperiled	Critically imperiled globally because of extreme rarity or because of some factor(s) making it especially vulnerable to extinction. Typically five or fewer occurrences or very few remaining individuals (<1,000) or acres (<2,000) or linear miles (<10).
G2	6-20	Imperiled	Imperiled globally because of rarity or because of some factor(s) making it very vulnerable to extinction. Typically 6 to 20 occurrences or few remaining individuals (1,000 to 3,000) or acres (2,000 to 10,000) or linear miles (10 to 50).
G3	21-100	Vulnerable	Vulnerable globally either because very rare throughout its range, found only in a restricted range (even if abundant at some locations), or other factors making it vulnerable to extinction. Typically 21 to 100 occurrences or between 3,000 and 10,000 individuals.
G4	101-1,000	Apparently Secure	Uncommon but not rare (although it may be rare in parts of its range, particularly on the periphery) and usually widespread. Apparently not vulnerable in most of its range, but possibly cause for long-term concern. Typically more than 100 occurrences and more than 10,000 individuals.
G5	1,001+	Secure	Common, widespread, and abundant (although it may be rare in parts of its range, particularly on the periphery). Not vulnerable in most of its range. Typically with considerably more than 100 occurrences and more than 10,000 individuals.
GH	0?	Historical	Known only from historical occurrences, but with some expectation that it may be rediscovered. May still be extant; further searching is needed.
GX	0	Presumed Extinct	Believed to be extinct throughout its range (e.g., passenger pigeon) with virtually no likelihood that it will be rediscovered. Not located despite intensive searches of historical sites and other appropriate habitat.
GU	Unknown	Unrankable	Currently unrankable due to lack of information or due to substantially conflicting information about status or trends; need more information.
GNR	Unknown	Not Ranked	Global rank not yet assessed.
G_T_	---	Subspecies or Variety Rank	The rank of a taxonomic subspecies or variety. As an example, G4T1 would apply to a subspecies of a species with an overall rank of G4, but the subspecies warranting a rank of G1.
G ?	---	Uncertain	Denotes inexact or uncertain numeric rank.

GLOBAL RANK	NUMBER OF EXTANT POPULATIONS	DESIGNATION	DESCRIPTION
G_Q	---	Questionable Taxonomy	Taxonomic classification that may reduce conservation priority. Distinctiveness of this entity as a taxon at the current level is questionable. Resolution of this uncertainty may result in change from a species to a subspecies or inclusion of this taxon in another taxon, with the resulting element having a lower-priority conservation status rank.

Physiographic Province/Region. The provinces/regions in which the species is known to occur are indicated. This should not be regarded as the only province(s) or regions(s) of the state in which the species could occur; our knowledge of the flora of North Carolina is still very imperfect. The provinces are abbreviated as follows:

ABBREVIATION	PROVINCE/REGION	DESCRIPTION
M	Mountains	All parts of North Carolina west of the foot of the Blue Ridge Escarpment.
P	Piedmont	All parts of North Carolina east of the foot of the Blue Ridge Escarpment and west of the Fall Line, including outlying “foothill” ranges, such as the Brushy, Uwharrie, Sauratown, and South mountains. This province is shallowly underlain by crystalline metamorphic, igneous, or (rarely) consolidated sedimentary rocks.
S	Sandhills	Portions of Cumberland, Harnett, Hoke, Lee, Moore, Richmond, Scotland, and Montgomery counties consisting mostly of deep aeolian sands of the Middendorf and Pinehurst formations (Cretaceous to Tertiary age). The Sandhills are really part of the coastal plain but are here distinguished because of their distinctive geomorphology and vegetation. Areas somewhat resembling the Sandhills region but occurring in other parts of the state (such as Carolina bay rims and aeolian or beach ridge deposits in the outer Coastal Plain) are considered part of the Coastal Plain Province.
C	Coastal Plain	All parts of North Carolina east of the Fall Line but excluding the Sandhills region and Tidewater. Generally consisting of unconsolidated sands, silts, clays, and peats, though rarely shallowly underlain by consolidated coquina limestone (“marl”).
T	Tidewater	Areas associated with tidal water, such as the ocean and barrier islands, sounds, estuaries, and mainland brackish or salt marshes.

Habitat.

The known habitats are described; as with provinces, these should not be regarded as the only possible habitats of the species in the state.

Counties of Known Occurrence. Following the description of habitats is a listing of the known counties of occurrence in the NCNHP database. We request information about any new occurrences in the state. County names are followed by symbols (defined below) if the species has not been recently verified within the county.

*	All recorded occurrences in the county are either extirpated, have not been found in recent surveys, or have not been surveyed recently enough to be confident they are still present. Unsurveyed occurrences are regarded as historical after 20-40 years, the number of years depending on the species and the amount of habitat alteration in the area. An asterisk should not be regarded as a definitive statement that the species is gone from the county but indicates that its continued existence is uncertain.
+	Counties with obscure or undatable records.
?	There is some question as to the validity of the county report.

The botanical exploration of North Carolina is far from complete, and many additional county records will be found, generally (but not always) in proximity to counties listed. Most species that do not have county of occurrence information are new to the Rare List and county status information had not been compiled at the time of publication. Visit the Natural Heritage Program website for the most up-to-date county occurrence information: www.ncnhp.org.

LIST FORMAT

Species are grouped by major taxa. Plants are placed in five groups: Vascular Plants, Mosses, Liverworts, Hornworts, and Lichens. Within a given taxon, species are listed alphabetically by scientific name. The following information is presented for each species on the list; “status” indicates the degree of legal recognition (if any); “rank” is a numerical scale of the rarity of a species, regardless of legal protection.

Scientific Name. Taxonomy and nomenclature of vascular plants (dicots, monocots, gymnosperms, ferns, and fern allies) generally follows Weakley, A.S. *Flora of the Southeastern United States, 2020 Edition*. University of North Carolina Herbarium (NCU), North Carolina Botanical Garden, University of North Carolina at Chapel Hill (available online at <https://ncbg.unc.edu/research/unc-herbarium/floras/> Scientific authorities for names have been omitted to save space, but follow Weakley, A.S. (2020).

Taxonomy and nomenclature of nonvascular plants (mosses, liverworts, hornworts, and lichens) follow *Bryophyte Flora of North America*, provisional publication, Missouri Botanical Garden (2001), <http://www.mobot.org/plantscience/BFNA/bfnamenu.htm>. L.E. Anderson, H.A. Crum, and W.R. Buck’s *List of the Mosses of North America North of Mexico* (Bryologist 93: 448-499 [1990]); L.E. Anderson’s *A Checklist of Sphagnum in North America North of Mexico* (Bryologist 93: 500-501 [1990]); R. Schuster’s *The Hepaticae and Anthocerotae of North America East of the Hundredth Meridian* (1966, 1969, 1974, 1980, and 1992); M.L. Hicks’ *Liverworts of the Mountains of North Carolina* (1982); M.L. Hicks’ *Guide to the Liverworts of North Carolina* (1992); M.L. Hicks and P.G. Davidson’s *Some Rare, Endemic, and Disjunct Liverworts in North Carolina* (Castanea 54: 255-261 [1989]); G.B. Perlmutter’s *Lichen Checklist for North Carolina* (Perlmutter, G.B. 2005. *Lichen Checklist for North Carolina*, *Evansia* 22[2]: 51-77; <http://lichenportal.org/portal/checklists/checklist.php?cl=1187&pid=103>); Brodo, Sharnoff, and Sharnoff’s *Lichens of North America* (2001); and Esslinger’s *Lichen Checklist for North America* (Esslinger, T.A. 2015. *A Cumulative Checklist for the Lichen-forming Lichenicolous and Allied Fungi of the Continental United States and Canada*. first posted 1 December 1997, most recent version [#23] 19 September 2019; <https://www.ndsu.edu/pubweb/~esslinge/chcklst/chcklst7.htm>).

NUMBER OF PLANT TAXA IN NORTH CAROLINA BY STATUS

Numbers in the table indicate number of taxa – generally species as well as valid unique varieties and subspecies – for each group and status. Because many taxa have both an N.C. and a U.S. status, totals cannot be added across a complete line. The total number of species in North Carolina is an estimate of the species that do occur or have occurred at one time in the state.

GROUP	APPROXIMATE NUMBER IN NORTH CAROLINA	N.C. STATUS				U.S. STATUS		
		E	T	SC	SR	E	T	C
Vascular Plants	4423	172	159	121	295	17	10	2
Mosses	445	0	1	2	131	0	0	0
Liverworts	225	0	0	4	55	0	0	0
Hornworts	7	0	0	0	1	0	0	0
Lichens	220	1	0	2	25	1	0	0

NORTH CAROLINA PLANT LIST – RARE

Vascular Plants

Acmella repens

SR-D

S1

G5

Creeping Spotflower

CP: low wet areas and floating mats in alluvial forests and swamps (Columbus, Robeson, Stanly*, Wake)

Acmispon helleri

T

S3

G3

Carolina Birdfoot-trefoil

P: woodlands and openings, generally on clayey soils, roadsides (Cabarrus, Caswell, Catawba*, Davidson, Davie*, Granville, Iredell*, Mecklenburg, Moore, Person, Randolph, Rockingham, Rowan, Stanly, Union, Wake, Warren*)

Aconitum reclinatum

SR-T

S3

G3G4

Trailing Wolfsbane

M: rich coves, seepage slopes, boulderfields, rocky stream banks, mainly associated with mafic rocks (Ashe, Avery, Buncombe, Caldwell*, Cherokee, Clay*, Graham, Haywood, Henderson, Jackson, Macon, Madison, Mitchell, Swain*, Transylvania*, Watauga, Yancey)

Adiantum capillus-veneris

T

S1

G5

Venus Hair Fern

C: coquina limestone (marl) outcrops, also adventitious on mortar of old stone walls in Wilmington, New Hanover County (Buncombe*, Columbus, Swain)

Adlumia fungosa

SC-V

S2

G4

Climbing Fumitory

M: coves and cliffs (Alleghany, Avery, Buncombe, Graham, Haywood, Henderson, Jackson*, Macon, Madison, Mitchell, Swain, Yancey)

Aeschynomene virginica

T

T

SH

G2

Sensitive Jointvetch

TC: freshwater to slightly brackish tidal marshes and wet ditches (Beaufort, Craven, Hyde, Lenoir*)

Agalinis virgata

T

S2

G3G4Q

Branched Gerardia

CS: savannas and depression pond shores (Brunswick, Carteret, Craven, Duplin*, New Hanover, Onslow, Pender, Scotland)

Agastache nepetoides

SR-P

S1

G5

Yellow Giant-hyssop

P: oak-hickory forests, especially over mafic rocks (Buncombe, Caswell, Durham, Graham, Granville, Madison*, Mitchell, Moore, Orange, Polk, Stokes*, Surry*, Transylvania*, Wake*, Warren*)

Scientific Name	Status		Rank	
Common Name	N.C.	U.S.	N.C.	Global

<i>Amphicarpum muehlenbergianum</i> Florida Peanut-grass C: natural depression ponds, flatwoods ponds, clay-based Carolina bays (Hoke, Robeson, Scotland)	E		S1	G4

Scientific Name	Status		Rank	
Common Name	N.C.	U.S.	N.C.	Global
Region: Habitat Comments (Counties of Occurrence)				
<i>Andropogon mohrii</i> Bog Bluestem C: wet savannas (Brunswick, Carteret, Columbus, Craven, Onslow, Pender, Robeson*, Scotland, Washington*)	SR-O		S2	G4?
<i>Anemone berlandieri</i> Southern Anemone P: thin soils around rock outcrops, usually on basic soil (Alexander*, Anson, Mecklenburg*, Montgomery, Moore, Orange, Polk*, Randolph, Rowan*, Rutherford, Stanly, Union)	E		S2	G4?
<i>Anemone caroliniana</i> Prairie Anemone P: clayey woodlands over mafic rocks (Mecklenburg, Rutherford, Stanly*)	E		S1	G5
<i>Anticlea glauca</i> White Camas M: calcareous rock outcrops (Buncombe*, McDowell, Yancey)	SR-P		S1	G4G5
<i>Arabis adpressipilis</i> Hairy Rockcress PM: thin soils around basic rock outcrops (Alexander, Buncombe)	E		S1	G4Q
<i>Arabis patens</i> Spreading Rockcress M: thin soils around limestone and nutrient-rich seepage from amphibolite (Madison, Rutherford, Swain)	SR-T		S1	G3
<i>Arenaria lanuginosa</i> var. <i>lanuginosa</i> Spreading Sandwort TC: maritime grasslands and forests, other sandy sites, shell middens, coquina limestone (marl) outcrops (Beaufort*, Brunswick*, Carteret*, Dare*, Jones, Onslow, Pender*)	SR-P		S1	G5T5
<i>Arethusa bulbosa</i> Bog Rose MP: bogs (Alleghany, Ashe*, Avery, Forsyth*, Henderson*, Transylvania)	E		S1	G5
<i>Aristida condensata</i> Big Three-awn Grass C: bay rims with xeric pine-oak scrub (Bladen, Brunswick, Hoke*, New Hanover, Pender, Richmond*, Scotland*)	T		S2	G4?
<i>Aristida simpliciflora</i> Chapman's Three-awn C: wet savannas (Brunswick, Columbus, Onslow, Pender)	E		S1S2	G3G4

Scientific Name	Status		Rank	
Common Name	N.C.	U.S.	N.C.	Global
Region: Habitat Comments (Counties of Occurrence)				
<i>Aristida tenuispica</i> Hillsboro Three-awn Grass C: xeric sandhill scrub (New Hanover, Pender)	SR-P		S1	G5
<i>Arnoglossum ovatum</i> var. <i>lanceolatum</i> Savanna Indian-plantain C: wet savannas (Bladen*, Brunswick, Columbus, Jones, Onslow, Pender)	E		S2	G4G5TNR
<i>Asclepias cinerea</i> Carolina Milkweed C: pine savannas (Columbus*)	SC-H		SH	G4?
<i>Asclepias pedicellata</i> Savanna Milkweed C: dry savannas and moist flatwoods (Bladen, Brunswick, Carteret, Columbus, New Hanover, Onslow, Pender, Sampson)	SC-V		S3	G4
<i>Asclepias purpurascens</i> Purple Milkweed PMC: swamps, bottomlands, edges of moist woods (Bertie*, Burke, Davidson, Durham, Granville, Hertford, Johnston, Moore, Pender, Person, Union, Wilkes)	SR-T		S1?	G5?
<i>Asemeia grandiflora</i> Showy Milkwort SC: sandhills (Brunswick, Hoke, Richmond, Robeson, Scotland)	SR-P		S2	G5?
<i>Asplenium bradleyi</i> Bradley's Spleenwort PM: acidic rock outcrops and cliffs (Burke, Cleveland*, Gaston, McDowell, Orange, Polk, Rutherford, Stokes)	SR-P		S2	G4
<i>Asplenium heteroresiliens</i> Carolina Spleenwort C: coquina limestone outcrops (Bladen, Craven, Jones, Onslow*)	E		S2	G2
<i>Asplenium monanthes</i> Single-sorus Spleenwort M: outcrops near waterfalls in escarpment gorges (Jackson, Transylvania)	E		S1	G4
<i>Asplenium pinnatifidum</i> Lobed Spleenwort PM: acidic rock outcrops and cliffs (Caldwell*, Henderson, Macon, Madison, Polk, Rutherford, Transylvania, Wilkes)	SR-P		S2	G4

Scientific Name	Status		Rank	
Common Name	N.C.	U.S.	N.C.	Global
Region: Habitat Comments (Counties of Occurrence)				
<i>Asplenium ruta-muraria</i> var. <i>cryptolepis</i> American Wall-rue M: limestone outcrops (Burke, Madison, McDowell)	SC-V		S1	G5T5
<i>Astragalus michauxii</i> Sandhills Milk-vetch SC: dry to xeric longleaf pine-oak woodlands and river-deposited sandhills (Bladen, Cumberland, Harnett, Hoke, Moore, New Hanover*, Pender, Richmond, Robeson*, Sampson, Scotland)	SC-V		S3	G3
<i>Athyrium angustum</i> Northern Lady Fern M: rock outcrops and forests at high elevations (Avery, Mitchell)	SR-P		S1	G5
<i>Baccharis glomeruliflora</i> Silverling T: shrubby areas on margins of brackish marshes (Brunswick, New Hanover*, Pender)	E		S1	G4
<i>Bacopa caroliniana</i> Blue Water-hyssop C: Shallow ponds, marshes, natural lakes, and tidal creeks (Bladen, Brunswick, Columbus, New Hanover, Onslow, Pender)	T		S1	G4G5
<i>Bacopa innominata</i> Tropical Water-hyssop C: tidal freshwater marshes (Chowan*, New Hanover*, Pender*)	SC-H		SH	G3G5
<i>Bacopa rotundifolia</i> Round-leaf Water-hyssop C: natural lakes (Hyde*, Pender)	SR-D		S1	G5
<i>Balduina atropurpurea</i> Purple Honeycomb-head C: savannas (Bladen, Brunswick*)	E		S1	G2
<i>Baptisia aberrans</i> Prairie Blue Wild Indigo P: glades and open forests on basic soils (Cabarrus*, Caswell, Durham, Granville, Montgomery, Orange*, Person*)	E		S2	G2
<i>Baptisia alba</i> Thick-pod White Wild Indigo PCS: open woodlands, clearings (Anson, Cabarrus, Davidson, Johnston, Montgomery, Randolph, Rutherford, Stanly, Union)	T		S2	G5

Scientific Name	Status		Rank	
Common Name	N.C.	U.S.	N.C.	Global
Region: Habitat Comments (Counties of Occurrence)				
<i>Baptisia bracteata</i> Creamy Wild Indigo P: open woodlands (McDowell*)	SC-H		SH	G4?
<i>Berberis canadensis</i> American Barberry PM: open forests and glades on basic soils (Alamance*, Alexander*, Buncombe*, Catawba, Davidson, Durham, Granville, Guilford*, Haywood*, Iredell*, Macon, Madison, McDowell, Montgomery, Orange*, Person*, Randolph*, Rockingham, Rutherford, Swain*, Transylvania*)	SC-V		S2	G3G4
<i>Betula cordifolia</i> Mountain Paper Birch M: high elevation forests and landslide scars (Orange, Yancey)	SC-V		S1	G5
<i>Bidens trichosperma</i> Crowned Beggar-ticks CT: brackish marshes (Beaufort*, Chowan*, Craven*, Dare, Tyrrell*)	SR-P		S1	G5?
<i>Boltonia asteroides</i> var. <i>glastifolia</i> White Doll's-daisy CS: clay-based Carolina bays, marshes, savannas (Brunswick, Camden*, Columbus, Hoke, New Hanover, Robeson, Scotland)	SR-O		S2	G5TNR
<i>Borodinia missouriensis</i> Missouri Rockcress P: thin soils around basic rock outcrops (Anson, Madison, Stanly, Union)	SR-D		S1S2	G5
<i>Botrychium angustisegmentum</i> Lance-leaf Moonwort MP: cove forests (Burke, Macon, McDowell)	SR-P		S1	G4
<i>Botrychium matricariifolium</i> Daisy-leaf Moonwort MP: cove forests (Avery, Burke, Haywood, Jackson, Mitchell, Swain, Yancey)	SR-P		S1	G5
<i>Botrychium simplex</i> var. <i>simplex</i> Least Moonwort M: open, grassy sites (Haywood, Jackson, Mitchell, Transylvania)	SR-P		S2	G5T3T4
<i>Bouteloua curtipendula</i> var. <i>curtipendula</i> Sideoats Grama M: dry rocky slopes and bluffs (Swain)	T		S1	G5T5

Scientific Name

Common Name	Status		Rank	
	N.C.	U.S.	N.C.	Global
<i>Bromus ciliatus</i> Fringed Brome M: moist areas near high elevation grassy balds (Alexander, Ashe, Buncombe, Haywood, Henderson, Jackson, Mitchell, Transylvania, Watauga)	SC-V		S1	G5
<i>Bromus latiglumis</i> Riverbank Brome M: river floodplains (Alleghany, Ashe, Jackson, Swain)	SR-P		S1	G5
<i>Buchnera americana</i> American Bluehearts MPS: glades, open forests, streambanks, probably primarily over mafic or calcareous rocks (Cherokee, Cumberland*, Durham*, Harnett*, Orange*, Polk*, Rowan, Sampson*, Union, Wake*)	E		S1	G5?
<i>Buckleya distichophylla</i> Piratebush M: bluffs, dry slopes, forests on lower slopes (Buncombe, Haywood, Macon, Madison, Mitchell, Swain*)	T		S2	G3
<i>Bulbostylis warei</i> Ware's Hair Sedge T: interdunes, riverine sandhills, and other xeric sand deposits (Brunswick*)	SC-H		SH	G3G4
<i>Calamagrostis cainii</i> Cain's Reedgrass M: high elevation rocky summits (Buncombe, Yancey)	E		S1	G1
<i>Calamagrostis canadensis</i> var. <i>canadensis</i> Canada Reedgrass M: bogs and moist areas around high elevation rock outcrops (Alleghany, Ashe, Avery, Haywood*, Jackson, Macon, Mitchell*, Watauga*)	SC-V		S1	G5T5
<i>Calamagrostis porteri</i> Porter's Reed Grass M: middle elevation ridgetop forests (Cherokee, Clay, Graham, Jackson, Macon, Mitchell, Rutherford, Surry, Transylvania*)	SR-P		S2	G4
<i>Callitriche terrestris</i> Terrestrial Water-starwort CP: low, wet places (Granville, Moore, Richmond, Stanly, Union)	SR-O		S2?	G5
<i>Calopogon multiflorus</i> Many-flower Grass-pink C: savannas (Brunswick, Carteret, Onslow, Pender)	E		S1	G2G3

Scientific Name	Status		Rank	
Common Name	N.C.	U.S.	N.C.	Global
Region: Habitat Comments (Counties of Occurrence)				
<i>Caltha palustris</i> var. <i>palustris</i> Marsh Marigold M: boggy sites (Alleghany, Ashe, Avery*, Buncombe*, Madison*, Watauga, Yancey*)	E		S1	G5T5
<i>Camassia scilloides</i> Wild Hyacinth CP: rich levees, slopes, and bottomlands (Alleghany, Franklin, Northampton, Vance)	T		S1	G4G5
<i>Campanula rotundifolia</i> Bluebells M: high elevation rocky summits (Ashe)	E		S1	G5
<i>Cardamine clematitis</i> Mountain Bittercress M: high elevation seeps, shaded outcrops, and streambanks (Avery, Buncombe, Burke, Caldwell, Clay, Graham, Haywood, Jackson, Macon, Mitchell, Swain, Transylvania, Watauga, Yancey)	SR-T		S2S3	G3
<i>Cardamine dissecta</i> Dissected Toothwort PM: rich woods, cove forests, bottomlands (Anson, Davidson, Durham, Guilford*, Mecklenburg, Montgomery, Randolph, Rowan, Rutherford*, Union)	SC-V		S2	G4?
<i>Cardamine douglassii</i> Douglass's Bittercress P: bottomlands, rich lower slopes (Cumberland, Durham, Granville, Harnett, Hertford*, Northampton, Orange*, Wake)	SR-P		S2	G5
<i>Cardamine longii</i> Long's Bittercress C: tidal marshes and tidal cypress-gum forests (Bladen, Columbus, Craven*, New Hanover, Onslow, Pender, Robeson, Washington)	SC-V		S2	G3?
<i>Cardamine micranthera</i> Small-anthered Bittercress P: seeps, streamside sandbars, and floodplain depressions (Forsyth*, Stokes)	E	E	S1	G2
<i>Cardamine rotundifolia</i> Mountain Watercress MP: seeps, banks of mountain brooks (Alleghany, Ashe, Mitchell, Stokes, Watauga, Yancey)	SR-P		S2	G4
<i>Carex amplisquama</i> Fort Mountain Sedge M: rich woods (Henderson, Polk, Transylvania)	SR-O		S2	G3

Scientific Name	Status		Rank	
Common Name	N.C.	U.S.	N.C.	Global
Region: Habitat Comments (Counties of Occurrence)				
<i>Carex aquatilis</i> var. <i>substricta</i> Aquatic Sedge M: mafic fens at high elevation (Ashe, Macon)	SR-P		S1	G5TNR
<i>Carex arctata</i> Black Sedge M: northern hardwood and spruce forests, bog edges (Ashe, Watauga)	SC-V		S1	G5
<i>Carex argyrantha</i> Hay Sedge M: wet meadows (Ashe)	E		S1	G5
<i>Carex austrodeflexa</i> Canebrake Sedge CS: streamhead pocosins and floodplains of small blackwater streams (Brunswick, Harnett, Hoke, Moore, Onslow, Pender, Richmond, Scotland)	SR-L		S3	G3G4
<i>Carex baileyi</i> Bailey's Sedge M: bogs and seeps (Alleghany, Ashe, Avery, Haywood, Henderson, Jackson, Mecklenburg*, Transylvania, Watauga)	SR-P		S2	G4
<i>Carex barrattii</i> Barratt's Sedge MS: seepage slopes (Harnett*, Henderson*)	SC-H		SH	G4
<i>Carex basiantha</i> Widow Sedge C: mesic forests, bottomlands, and lower slopes, over calcareous rock (Jones, Pender)	E		S1	G5
<i>Carex bushii</i> Bush's Sedge PM: open wet areas (Ashe*, Cabarrus, Durham*, Gaston*, Granville*, Johnston*, Nash*, Orange, Rowan, Stanly)	SR-P		S1	G4
<i>Carex buxbaumii</i> Brown Bog Sedge MP: bogs and fens (Alleghany, Ashe, Avery, Forsyth*, Henderson, Watauga, Yancey)	SC-V		S2	G5
<i>Carex calcifugens</i> Calcium-fleeing Sedge C: mesic deciduous forests and maritime woodlands (Brunswick, Carteret, Dare, Onslow)	SC-V		S2?	G3
<i>Carex careyana</i> Carey's Sedge M: rich cove forests (Jackson)	T		S1	G4G5

Scientific Name	Status		Rank	
Common Name	N.C.	U.S.	N.C.	Global
Region: Habitat Comments (Counties of Occurrence)				
<i>Carex cherokeensis</i> Cherokee Sedge MP: floodplains (Bertie, Cherokee, Clay, Macon, Madison, Pender, Polk)	T		S1	G4G5
<i>Carex conoidea</i> Cone-shaped Sedge MP: bogs (Alleghany, Ashe, Iredell*)	T		S1	G5
<i>Carex cristatella</i> Small-crested Sedge M: grassy balds, bogs (Jackson*, Swain*, Yancey)	SC-V		S1	G5
<i>Carex crus-corvi</i> Crowfoot Sedge C: swamp forests (Bertie, Bladen, Columbus, Craven, Currituck, Durham, Edgecombe*, Halifax, Johnston, Lenoir, Martin, Northampton, Pitt, Wayne)	SR-P		S1	G5
<i>Carex decomposita</i> Cypress Knee Sedge C: beaver ponds, old millponds; often on <i>Taxodium ascendens</i> trunks and knees (Brunswick, Camden, Chowan, Cumberland, Currituck, Gates, New Hanover*, Richmond, Scotland, Warren*)	SR-O		S2	G3G4
<i>Carex disjuncta</i> Silvery Sedge CS: beaver ponds, old millponds, impoundments; usually on <i>Nyssa biflora</i> (Dare, Hoke, Hyde, Richmond, Scotland, Tyrrell)	SR-P		S2	G5
<i>Carex eburnea</i> Bristle-leaf Sedge M: calcareous outcrops (Madison*)	T		S1	G5
<i>Carex emmonsii</i> Emmons's Sedge CS: moist woods and stream banks (Columbus, Harnett*, Hoke, Johnston*, Jones, Moore, Northampton*, Onslow, Pender, Tyrrell, Washington, Wayne*)	SR-O		S2	G5
<i>Carex exilis</i> Coastal Sedge S: seepage slopes, wet seepy powerlines (Cumberland, Harnett, Hoke, Moore*)	E		S2	G5
<i>Carex hitchcockiana</i> Hitchcock's Sedge M: moist to dryish forests over calcareous or mafic rocks (Ashe, Buncombe, Jackson, Macon, McDowell)	SR-P		S1	G5

Scientific Name	Status		Rank	
Common Name	N.C.	U.S.	N.C.	Global
Region: Habitat Comments (Counties of Occurrence)				
<i>Carex hormathodes</i> Mash Straw Sedge C: freshwater and slightly brackish tidal marshes (Currituck)	T		S1	G4G5
<i>Carex impressinervia</i> Ravine Sedge CP: rich alluvial forests (Anson, Harnett, Montgomery, Stanly, Union)	SC-V		S2	G2
<i>Carex jamesii</i> James's Sedge PC: rich woods, especially over mafic rocks (Bertie, Caswell, Cumberland, Durham, Halifax, Harnett, Lee, Martin, Moore, Northampton)	SC-V		S2	G5
<i>Carex lasiocarpa</i> var. <i>americana</i> Slender Sedge M: high elevation fens over amphibolite (Ashe)	SC-V		S1	G5T5
<i>Carex lupuliformis</i> False Hop Sedge CP: moist bottomlands, especially in calcareous or mafic areas (Bertie, Brunswick, Chowan, Craven*, Forsyth*, Jones, Moore, Sampson, Tyrrell)	SR-P		S1	G4
<i>Carex lutea</i> Golden Sedge C: ecotones between very wet clay savannas and swamp forests (Onslow, Pender)	E	E	S2	G2
<i>Carex meadii</i> Mead's Sedge P: low wet places over diabase (Durham*, Granville, Macon, Wake*)	E		S1	G4G5
<i>Carex molestiformis</i> Ozark Plateau Sedge M: bottomland forests (Alleghany)	SR-D		S1	G4
<i>Carex oligocarpa</i> Rich-woods Sedge CM: rich woods, mostly over calcareous or mafic rocks (Carteret)	T		S1	G4G5
<i>Carex oligosperma</i> Few-seeded Sedge M: seeps and bogs (Avery, Mitchell, Watauga)	E		S1	G5
<i>Carex pedunculata</i> var. <i>pedunculata</i> Longstalk Sedge M: rich cove forests (Buncombe, Henderson, Polk, Transylvania)	SC-V		S2	G5TNR

Scientific Name	Status		Rank

<i>Cystopteris fragilis</i> Fragile Fern M: high elevation cliffs (Ashe, Haywood, Jackson, Mitchell, Watauga)	SR-P		S1	G5

Scientific Name	Status		Rank	
Common Name	N.C.	U.S.	N.C.	Global
Region: Habitat Comments (Counties of Occurrence)				
<i>Cystopteris tennesseensis</i> Tennessee Bladder-fern CM: calcareous rock outcrops (Craven*, Graham*, Jones, Onslow*)	E		S1	G5
<i>Cystopteris tenuis</i> Upland Bladder-fern M: high elevation rocky summits, cliffs (Haywood, Transylvania, Watauga)	SR-P		S1	G5
<i>Dactylorhiza viridis</i> Long-bracted Frog Orchid MP: seeps in cove forests (Ashe, Avery*, Buncombe*, Forsyth*, Haywood*, Jackson*, Macon*, Watauga)	T		S1	G5
<i>Dalibarda repens</i> Robin Runaway M: bogs and moist woods under rhododendrons (Alleghany, Ashe, Transylvania)	E		S2	G5
<i>Danthonia epilis</i> Bog Oatgrass MS: seepage bogs, wet seepy powerlines (Burke, Cumberland, Harnett, Haywood, Henderson, Jackson, Macon, Montgomery, Moore, Richmond, Scotland, Transylvania)	SR-T		S3	G4
<i>Delphinium exaltatum</i> Tall Larkspur MP: grassy balds, glades, woodlands, mostly over mafic rock (Alleghany, Ashe, Avery, Caswell, Durham, Gaston*, Granville*, Haywood, Jackson, McDowell, Mecklenburg*, Mitchell*, Person, Watauga)	T		S2	G3
<i>Dendrolycopodium dendroideum</i> Prickly Ground-pine M: openings and balds (Ashe, Avery, Burke, Graham, Haywood, Henderson*, Jackson, Macon, Swain*, Transylvania*)	SR-P		S2	G5
<i>Dendrolycopodium hickeyi</i> Pennsylvania Ground-pine M: openings, balds, bog margins, and high elevation forests (Avery, Buncombe, Burke*, Haywood, Henderson, Jackson, Macon, Mitchell, Transylvania, Watauga, Yancey)	SR-P		S2?	G5
<i>Deschampsia cespitosa</i> ssp. <i>glauca</i> Tufted Hairgrass M: olivine barrens, high elevation outcrops of mafic rock (Alleghany, Clay)	T		S1	G5T5

Scientific Name	Status		Rank	
Common Name	N.C.	U.S.	N.C.	Global
Region: Habitat Comments (Counties of Occurrence)				
<i>Desmodium fernaldii</i> Fernald's Tick-trefoil SC: dry to mesic hardwood-pine woodlands (Brunswick*, Cumberland, Dare*, Duplin*, Edgecombe*, Gates*, Hoke, Jones*, Lenoir*, Martin*, Montgomery, Richmond, Scotland*, Washington*)	SR-P		S1	G4
<i>Desmodium ochroleucum</i> Creamy Tick-trefoil P: sandy or rocky woodland openings (Davie*, Orange*, Swain*)	SC-H		SH	G2G3
<i>Desmodium sessilifolium</i> Sessile Tick-trefoil P: open woodlands (Cabarrus*, Mecklenburg*)	SC-H		SH	G5
<i>Diarrhena americana</i> Eastern Beakgrass M: rich cove forest (Graham, Jackson)	T		S1	G4G5
<i>Dicentra eximia</i> Bleeding Heart MP: rock outcrops (Buncombe, Burke, Graham, Haywood, Henderson, Macon, Madison, McDowell, Mitchell, Rutherford, Swain, Transylvania, Watauga*, Yancey)	SR-P		S3	G4
<i>Dichantheium annulum</i> Ringed Witch Grass CP: dry sandy or rocky open woods and borders of thickets (Alleghany, Chatham*, Clay*, Dare*, Davie*, Durham, Lee*, Mecklenburg*, Montgomery*, Orange*, Person*, Rowan*, Stanly, Stokes*, Wake*)	E		S1	G4
<i>Dichantheium bicknellii</i> Bicknell's Witchgrass MPC: shaded to open woodlands (Alexander, Alleghany, Ashe, Columbus, Granville, Jackson, Macon, Madison, Mitchell, Montgomery, Moore*, Rowan, Union, Yancey)	SR-P		S2	G4?Q
<i>Dichantheium caeruleascens</i> Blue Witchgrass C: marshes, swamps, wet pinelands, maritime grasslands, damp sandy soil. (Brunswick*, Carteret, Currituck, Dare, Hyde, Onslow, Pender)	T		S2	G2G3
<i>Dichantheium cryptanthum</i> Hidden-flowered Witchgrass C: wet streamhead pocosin openings, including utility clearings (Bladen, Brunswick, Carteret, Cumberland, Harnett, Hoke, Johnston*, Moore, New Hanover*, Onslow, Pender, Richmond, Wake*)	SR-T		S2	G3G4Q

Scientific Name

Common Name	Status		Rank	
	N.C.	U.S.	N.C.	Global
<i>Dichantheium fusiforme</i> Spindle-fruited Witchgrass CS: dry to moist sand of open pine and pine-oak woods and clearings. (Beaufort, Bladen*, Brunswick, Columbus*, Dare, Gates, Hoke, Jones, Moore*, Onslow, Richmond*)	SR-P		S1	G5?
<i>Dichantheium hirstii</i> Hirst Brothers' Witchgrass C: cypress savannas (Onslow)	E		S1	G1
<i>Dichantheium neuranthum</i> Nerved Witchgrass TP: maritime wet grasslands, Piedmont barrens (Brunswick*, Carteret*, Dare, Hyde, New Hanover*, Union)	SR-D		S1S2	G3
<i>Dichantheium spretum</i> Eaton's Witchgrass CP: wet sands and peats of bogs, savannas, meadows, and shores (Carteret, Craven, Onslow, Pender)	E		S1	G5
<i>Dichantheium strigosum</i> var. <i>glabrescens</i> Hairless Witchgrass C: low, open sandy pinelands (Onslow)	T		S1	G5T4T5
<i>Didiplis diandra</i> Water Purslane CS: sluggish streams and ponds (Chowan*, Edgecombe*, Harnett*, Hertford*, Johnston, Moore*, Nash, Perquimans*, Richmond, Wake, Warren*)	SR-P		S1	G5
<i>Didymoglossum petersii</i> Dwarf Filmy-fern M: moist rocks in humid gorges (Graham, Jackson, Macon, Transylvania)	SR-T		S2	G4G5
<i>Diervilla rivularis</i> Riverbank Bush-honeysuckle M: forests (Mitchell, Yancey)	T		S1	G3
<i>Dionaea muscipula</i> Venus Flytrap CST: savannas, seepage bogs, pocosin edges (Beaufort, Bladen, Brunswick, Carteret, Columbus, Craven, Cumberland, Duplin, Hoke, Jones, Lenoir*, Moore*, New Hanover, Onslow, Pamlico, Pender, Robeson*, Sampson)	T		S2	G2
<i>Diplachne maritima</i> Salt-meadow Grass CT: fresh to brackish tidal marshes (Brunswick, Currituck, Dare, Hyde, Tyrrell)	E		S1	G4Q

Scientific Name	Status		Rank	
Common Name	N.C.	U.S.	N.C.	Global
Region: Habitat Comments (Counties of Occurrence)				
<i>Ditrysinia fruticosa</i> Sebastian-bush C: swamp forests (Brunswick, Columbus, Pender*, Robeson)	SR-P		S2	G5
<i>Draba ramosissima</i> Branching Draba MP: calcareous and mafic rock outcrops (Buncombe, Haywood, Jackson, Madison, Rutherford)	SR-P		S2	G4
<i>Drosera filiformis</i> var. <i>filiformis</i> Threadleaf Sundew C: depression ponds, wet borrow pits, and ditches in various habitats including savannas, riverine sand ridges, and bay rims (Bladen, Brunswick, Columbus, Duplin, New Hanover, Robeson, Sampson)	SC-V		S2	G4
<i>Echinacea laevigata</i> Smooth Coneflower P: glades, woodlands, and open areas over mafic rocks (Durham, Granville, Mecklenburg, Montgomery*, Orange*, Rockingham)	E	E	S1S2	G2G3
<i>Echinacea pallida</i> Pale Coneflower P: mafic glades and barrens (Gaston*, Granville, McDowell*, Mecklenburg*, Richmond, Rutherford)	SR-D		S1	G4
<i>Echinacea purpurea</i> Purple Coneflower M: open woods and clearings (Alleghany, Ashe, Chatham, Graham, Jackson*, Madison, McDowell, Randolph, Rutherford*, Vance, Warren, Yadkin*)	SR-O		S1	G4
<i>Eleocharis atropurpurea</i> Purple Spikerush C: clay-based Carolina bays (Scotland*)	SR-D		S1	G4G5
<i>Eleocharis cellulosa</i> Gulfcoast Spikerush CT: interdune ponds, brackish marshes and tidal freshwater marshes (Beaufort, Carteret, Dare, Hyde, Onslow*, Washington)	T		S2	G4G5
<i>Eleocharis elongata</i> Florida Spikerush C: limesink ponds (Brunswick, New Hanover, Onslow)	E		S1	G5?
<i>Eleocharis fallax</i> Creeping Spikerush C: fresh to brackish tidal marshes (Carteret*, Currituck, Dare, Jones, Onslow)	SR-T		S1S2	G4G5

Scientific Name	Status		Rank	
Common Name	N.C.	U.S.	N.C.	Global
Region: Habitat Comments (Counties of Occurrence)				
<i>Eleocharis montevidensis</i> Sand Spikerush CT: maritime wet grassland (Currituck*, Dare, Hyde, Onslow)	SR-P		S1	G5
<i>Eleocharis parvula</i> Dwarf Spikerush CT: brackish and fresh marshes (Brunswick, Carteret, Craven*, Currituck, Dare, Gaston*, Hyde, Mecklenburg*, Onslow, Tyrrell)	T		S1	G5
<i>Eleocharis robbinsii</i> Robbins' Spikerush CS: limesink ponds, clay-based Carolina bays, peat-burn lakes, millponds, beaver ponds, artificial lakes (Bladen*, Brunswick, Carteret, Craven, Cumberland, Harnett, Hoke, Moore, New Hanover, Onslow, Sampson, Scotland, Washington)	SC-V		S2S3	G4G5
<i>Eleocharis rostellata</i> Beaked Spikerush CT: brackish marshes (Beaufort*, Brunswick, Camden, Carteret, Currituck, Dare, Hyde, Pamlico)	SR-O		S2	G5
<i>Eleocharis uniglumis</i> Saltmarsh Spikerush CT: brackish and freshwater marshes (Currituck*, Dare, Hyde*)	SR-P		S1	G5
<i>Eleocharis vivipara</i> Viviparous Spikerush C: bogs and pools (Bladen, Brunswick, Carteret, Hyde, Moore, New Hanover, Onslow, Pender, Tyrrell)	T		S1	G5
<i>Eleocharis wolfii</i> Wolf's Spikerush P: oak flatwoods, wet meadows (Cabarrus)	SR-T		S1	G3G5
<i>Elymus trachycaulus</i> ssp. <i>trachycaulus</i> Slender Wheatgrass M: olivine barrens (Clay)	T		S1	G5T5
<i>Elymus halophilus</i> Terrell Grass C: brackish marshes, maritime forests and hammocks (Beaufort, Brunswick, Carteret, Craven, Hyde, Washington)	SR-P		S1	G5
<i>Enemion biternatum</i> Eastern Isopyrum PC: rich bottomlands, levees, and lower slopes (Caswell, Chatham*, Cumberland, Durham, Franklin, Granville, Halifax, Harnett, Lee, Northampton, Orange*, Person, Vance)	SC-V		S2	G5

Scientific Name	Status		Rank	
Common Name	N.C.	U.S.	N.C.	Global
Region: Habitat Comments (Counties of Occurrence)				
<i>Epidendrum conopseum</i> Green Fly Orchid C: epiphytic on trees in blackwater river swamps (Bladen, Brunswick, Columbus, New Hanover, Pender)	T		S1S2	G4
<i>Epilobium ciliatum</i> ssp. <i>ciliatum</i> American Willow-herb M: seeps and bogs (Avery, Buncombe, Caldwell, Henderson, Jackson*, Macon, Madison, Mitchell*, Swain*, Watauga, Yancey*)	SR-P		S2	G5T5
<i>Erigenia bulbosa</i> Harbinger-of-spring MP: rich woods (Caswell, Graham)	T		S1	G5
<i>Eriocaulon aquaticum</i> Seven-angled Pipewort CS: blackwater creeks, natural lakes, tidal freshwater marshes (Bladen*, Brunswick*, Columbus, Craven*, Cumberland, Hoke, Moore, New Hanover, Perquimans*, Tyrrell, Washington)	SC-V		S2	G5
<i>Eriocaulon parkeri</i> Estuary Pipewort C: natural lakes (Craven, Hyde, Tyrrell*)	T		S1	G3
<i>Eriocaulon texense</i> Texas Hatpins S: streamhead seepage ecotones and seepage slopes (Cumberland, Richmond)	E		S1	G4
<i>Eriogonum tomentosum</i> Southern Wild-buckwheat C: sandhills (Bladen*)	SC-H		SH	G4G5
<i>Eryngium aquaticum</i> var. <i>ravenelii</i> Marsh Eryngo C: wet flatwoods with a calcareous influence, ditches (Pender)	SR-P		S1	G4T2T3
<i>Erythrina herbacea</i> Coralbean TC: maritime forests (Brunswick, Carteret*, New Hanover)	E		S2	G5
<i>Eupatorium leptophyllum</i> Limesink Dog-fennel C: limesink ponds and clay-based Carolina bays (Brunswick, New Hanover, Robeson, Scotland)	E		S2	G4G5
<i>Eupatorium paludicola</i> Bay Boneset C: cypress savannas, clay-based bays, and small depressions ponds (Brunswick, Onslow, Scotland)	E		S1S2	G2

Scientific Name	Status		Rank	
Common Name	N.C.	U.S.	N.C.	Global
Region: Habitat Comments (Counties of Occurrence)				
<i>Eupatorium resinotum</i> Pine Barren Boneset SC: seepage bogs, impoundments, shrub swamps, openings in streamhead pocosins (Bladen, Cumberland, Harnett, Hoke, Moore, Robeson, Sampson, Scotland)	SR-O		S3	G3
<i>Eupatorium saltuense</i> Tall Boneset P: upland forests, woodland borders (Burke, Caswell*, Granville, McDowell, Person, Rutherford, Sampson, Warren)	SR-L		S1?	G4
<i>Euphorbia bombensis</i> Southern Seaside Spurge T: seabeaches (Brunswick, Carteret, Dare, New Hanover, Onslow)	SR-T		S2?	G4G5
<i>Euphorbia commutata</i> Cliff Spurge MP: thin soil around mafic or calcareous outcrops (Buncombe, Caswell*, Haywood, Rutherford)	T		S1	G5
<i>Euphorbia cordifolia</i> Heartleaf Sandmat CS: sandhills (Bladen, Richmond*, Wayne*)	T		S1	G5
<i>Euphorbia mercurialina</i> Cumberland Spurge P: rich slopes over gabbro (Anson, Montgomery, Moore, Richmond)	SC-V		S2	G4
<i>Euphorbia purpurea</i> Glade Spurge M: forests, especially over mafic rock (Ashe, Buncombe, Clay, Graham, Haywood, Jackson, Macon, Madison, Mitchell, Swain, Watauga*, Yancey)	SR-T		S3	G3
<i>Eurybia mirabilis</i> Piedmont Aster P: rich slopes and bottomlands (Anson, Macon*, Mecklenburg, Montgomery, Richmond, Stanly, Union)	SR-T		S3	G3
<i>Eurybia spectabilis</i> Showy Aster CMP: pine barrens and woodland borders (Bertie*, Cabarrus*, Chatham, Chowan*, Craven*, Durham, Gates*, Granville, Hertford, Johnston, Jones, Lee*, Onslow, Pitt*, Polk, Robeson*, Rowan*, Stanly*)	SR-O		S2?	G5
<i>Eustachys glauca</i> Saltmarsh Fingergrass T: salt marshes (New Hanover*)	SR-P		SH	G4

Scientific Name Common Name Region: Habitat Comments (Counties of Occurrence)	Status		Rank	
	N.C.	U.S.	N.C.	Global
	<i>Filipendula rubra</i> Queen-of-the-prairie M: bogs, wet meadows (Buncombe*, Haywood, Macon, Transylvania*, Watauga, Yancey)	E		S1
<i>Fimbristylis perpusilla</i> Harper's Fimbry C: drawdown zones of blackwater rivers (Brunswick, Columbus)	T		S1	G2
<i>Fimbristylis vahlii</i> Vahl Fimbry C: mudflats along rivers or reservoirs, also in sandy disturbed areas (Brunswick*)	SR-P		SH	G5
<i>Fleischmannia incarnata</i> Pink Thoroughwort PMC: rich woods and thin woodlands over diabase, calcareous rocks, other basic rocks, or rich alluvium (Alexander, Durham, Madison, Martin*, Polk, Richmond, Warren*, Wilkes)	SR-O		S2	G5
<i>Fothergilla major</i> Large Witch-alder MP: dry ridgetop or bluff forests, seepage wetlands, and Piedmont longleaf pine forests (Burke, Chatham, Gaston*, Harnett, Jackson, McDowell, Montgomery, Orange, Person, Polk, Rutherford, Stanly, Stokes, Surry, Transylvania, Wake)	SR-T		S3	G3
<i>Fragaria americana</i> American Woodland Strawberry M: native habitat unknown (Watauga*)	SR-P		S1	G5
<i>Frasera caroliniensis</i> Columbo M: deciduous forests on mafic soil (Cherokee, Clay, Graham, Macon)	SR-P		S2	G5
<i>Gaillardia aestivalis</i> var. <i>aestivalis</i> Sandhills Blanket-flower S: dry sandy roadsides, dry longleaf pine-oak uplands (Cumberland, Hoke, Moore*, Richmond, Scotland)	E		S2	G5TNR
<i>Galactia mollis</i> Soft Milk-pea CST: loamy sand depressions in longleaf pine-oak uplands (Brunswick*, Cumberland, Hoke, Richmond, Scotland, Wayne*)	T		S2	G4G5
<i>Gaylussacia brachycera</i> Box Huckleberry P: dry ridges and slopes (Durham)	E		S1	G3

Scientific Name	Status		Rank	
Common Name	N.C.	U.S.	N.C.	Global
Region: Habitat Comments (Counties of Occurrence)				
<i>Gaylussacia nana</i> Dwarf Huckleberry C: coastal fringe sandhill (Brunswick, New Hanover)	E		S1	G4
<i>Gaylussacia orocola</i> Appalachian Dwarf Huckleberry M: bogs (Avery*, Buncombe*, Haywood*, Henderson, Macon*, Transylvania)	E		S1	G1
<i>Gelsemium rankinii</i> Swamp Jessamine C: floodplains of blackwater rivers and streams (Brunswick, Columbus, Cumberland*, New Hanover, Pender, Robeson)	SC-V		S1S2	G5
<i>Gentiana alba</i> Yellow Gentian M: habitat not known (Watauga*)	SC-H		SH	G4
<i>Gentiana latidens</i> Balsam Mountain Gentian M: moist open sites on rocky slopes at higher elevations (Haywood, Jackson, Macon*, Transylvania)	T		S1S2	G1G2
<i>Gentianopsis crinita</i> Fringed Gentian M: sunny or partially shaded seepage areas over calcareous, mafic, or ultramafic rocks (Ashe, Clay, Macon*, Watauga)	E		S1	G5
<i>Geum aleppicum</i> Yellow Avens M: bogs (Avery, Swain*)	E		S1	G5
<i>Geum geniculatum</i> Bent Avens M: high elevation forests, streambanks, seepage slopes (Avery, Caldwell, Mitchell, Watauga)	SC-V		S1S2	G2
<i>Geum laciniatum</i> Rough Avens M: bogs and wet meadows (Avery, Wilkes*)	E		S1	G5
<i>Geum radiatum</i> Spreading Avens M: high elevation rocky summits (Ashe, Avery, Buncombe, Burke*, Haywood, Mitchell, Transylvania, Watauga, Yancey)	E	E	S2	G2

<i>Symphyotrichum pratense</i> Barrens Silky Aster M: calcareous glades and barrens (Buncombe)	SR-P		S1	G4?
<i>Symphyotrichum rhiannon</i> Buck Creek Aster M: serpentine pine barrens (Clay)	T		S1	G1
<i>Symphyotrichum shortii</i> Short's Aster M: bluffs and rocky banks (Cherokee, Transylvania*)	SR-P		S2	G5
<i>Synandra hispidula</i> Synandra M: rich cove forests (Jackson*, Swain)	T		S1	G4
<i>Taxus canadensis</i> Canada Yew M: bogs, swamp forests under spruce (Ashe, Watauga)	T		S1	G5
<i>Thalictrum cooleyi</i> Cooley's Meadowrue C: wet savannas (Brunswick, Columbus, New Hanover, Onslow, Pender)	E	E	S1	G1

Scientific Name

Common Name	Status		Rank	
	N.C.	U.S.	N.C.	Global
<i>Thalictrum macrostylum</i> Small-leaved Meadowrue CSPM: bogs and wet woods (Alleghany, Ashe, Beaufort, Carteret, Cherokee, Clay, Cumberland, Gates, Graham, Henderson, Hertford, Hyde*, Jones, Macon, McDowell, Moore, Nash, New Hanover, Northampton, Pender, Richmond, Rutherford, Transylvania)	SC-V		S2	G3G4
<i>Thaspium pinnatifidum</i> Mountain Thaspium M: calcareous slopes (Jackson*, Macon, Madison, McDowell, Swain*)	E		S1	G2G3
<i>Thermopsis fraxinifolia</i> Ash-leaved Golden-banner MP: dry ridges (Buncombe, Burke, Henderson, Jackson, Macon, McDowell, Polk, Stokes, Surry, Transylvania, Yancey)	SC-V		S2?	G3?
<i>Thermopsis mollis</i> Appalachian Golden-banner PM: dry ridges and open woodlands (Alexander, Buncombe*, Burke, Cabarrus*, Caldwell, Catawba, Chatham*, Cleveland, Columbus*, Durham*, Forsyth*, Franklin*, Gaston, Granville, Guilford*, Henderson, Iredell*, Lincoln, McDowell, Orange, Polk, Rutherford, Stokes, Surry, Vance*, Wake, Warren)	SR-T		S2	G3G4
<i>Tiedemannia canbyi</i> Canby's Dropwort (= <i>Oxypolis canbyi</i>) C: clay-based Carolina bays (Scotland)	E	E	S1	G2
<i>Tomostima reptans</i> Creeping Draba P: dry soil (Lincoln*)	SR-P		SH	G5
<i>Torreyochloa pallida</i> Pale Mannagrass CM: Bogs, mucky wetlands such as old beaver-ponds, pools in cypress swamps, drawdown shores of natural ponds (Avery*, Columbus*, Currituck, Duplin*, Gates, Harnett, Henderson, Martin)	SR-P		S1	G5
<i>Tradescantia virginiana</i> Virginia Spiderwort P: rich woods on circumneutral soils (Ashe, Burke, Caswell, Harnett, Lincoln, McDowell, Mecklenburg, Montgomery*, Moore, Orange, Randolph, Rockingham, Rutherford, Stanly, Surry, Wake)	SR-O		S2S3	G5
<i>Triadenum fraseri</i> Fraser's Marsh St. John's-wort M: bogs and peaty wetlands (Northampton)	SR-P		S1	G5

Scientific Name	Status		Rank	
Common Name	N.C.	U.S.	N.C.	Global
Region: Habitat Comments (Counties of Occurrence)				
<i>Triadenum tubulosum</i> Marsh St. John's-wort CMP: bogs, peaty wetlands, drawdown sloughs along rivers, drawdown shorelines along man-made reservoirs (Anson, Bertie, Davidson, Forsyth*, Harnett*, Watauga*).	SR-O		S2	G4?
<i>Triantha glutinosa</i> Sticky Bog Asphodel MP: bogs, seepages (Ashe, Caldwell*, Haywood, Henderson*, Jackson, Transylvania)	SC-V		S1	G5
<i>Trichophorum cespitosum</i> Deerhair Bulrush M: high elevation rocky summits, moist cliffs (Ashe, Avery, Buncombe, Burke, Caldwell*, Haywood, Henderson, Jackson, Macon, Mitchell, Rutherford, Transylvania, Watauga, Yancey)	SR-D		S2S3	G5
<i>Trichostema brachiatum</i> Glade Bluecurls PM: diabase glades, other dry calcareous or mafic outcrops (Buncombe, Granville, Madison, Orange*, Rockingham, Yancey*)	E		S1	G5
<i>Trichostema nesophilum</i> Dune Bluecurls T: dunes, openings in maritime forest and scrub (Brunswick, Carteret, Dare, Hyde, New Hanover)	SC-V		S2	G2
<i>Trichostema setaceum</i> Narrowleaf Bluecurls SPC: dry woodlands, granite flatrocks (Alexander, Bladen, Burke, Cleveland, Hoke, Macon, McDowell, Moore, Richmond, Robeson, Rutherford, Wake, Wilkes)	SR-T		S2	G5
<i>Tridens ambiguus</i> Pineland Triodia C: clay-based Carolina bays (Scotland)	E		S1	G4
<i>Tridens chapmanii</i> Chapman's Redtop CP: dry pine and oak woods, sandy roadsides (Bladen, Carteret*, Craven, Dare, Hoke, Jones, Martin*, Montgomery, Moore, Orange*, Pender, Richmond, Scotland*)	SC-V		S1S2	G3
<i>Tridens strictus</i> Spike Triodia C: pine flatwoods (Duplin*, Hoke*, Pender*, Robeson*)	SC-H		SH	G5
<i>Trientalis borealis</i> Northern Starflower (= <i>Lysimachia borealis</i>) M: northern hardwood forests, rich slope forests, often in second-growth areas (Buncombe, Cherokee, Graham, Haywood) (Buncombe, Cherokee, Graham, Haywood)	T		S1	G5

Scientific Name	Status		Rank	
Common Name	N.C.	U.S.	N.C.	Global
Region: Habitat Comments (Counties of Occurrence)				
<i>Trifolium carolinianum</i> Carolina Clover C: savannas, sandy open areas (Duplin*, New Hanover*, Onslow*)	SC-H		SH	G5
<i>Trifolium reflexum</i> Buffalo Clover PMSC: open woods and clearings (Ashe, Buncombe*, Caswell, Chatham*, Durham*, Granville, Halifax*, Harnett, Iredell, Madison, Montgomery, Moore, Randolph*, Wake, Yadkin)	T		S1S2	G3G4
<i>Trillium discolor</i> Mottled Trillium M: rich coves in the Savannah River drainage (Jackson, Transylvania)	T		S1	G3
<i>Trillium flexipes</i> Bent White Trillium M: rich coves (Cherokee, Henderson, Swain*)	T		S1	G5
<i>Trillium pusillum</i> var. <i>ozarkanum</i> Ozark Least Trillium M: rich cove forests (Clay, Haywood*, Jackson, Macon)	E		S1	G4T3
<i>Trillium pusillum</i> var. <i>pusillum</i> Carolina Least Trillium CP: ecotones between savannas and nonriverine wet hardwood forests, over marl (Anson, Onslow, Pender)	E		S2	G4T3
<i>Trillium pusillum</i> var. <i>virginianum</i> Virginia Least Trillium C: mesic to swampy hardwood forests (Camden*, Currituck*, Gates, Halifax, Johnston, Nash, Wake)	E		S1	G3T2
<i>Trillium recurvatum</i> Recurved Trillium M: rich soils of cove over calcareous rock (Catawba)	T		S1	G5
<i>Trillium sessile</i> Sessile-flowered Trillium C: rich alluvial levees and slopes (Halifax, Northampton)	T		S1	G5
<i>Trillium simile</i> Sweet White Trillium MP: rich coves (Buncombe, Burke, Cherokee, Graham, Haywood*, Henderson, Jackson, Macon, Madison, McDowell, Polk, Rutherford, Swain*, Yancey)	SC-V		S2	G3

Scientific Name	Status		Rank	
Common Name	N.C.	U.S.	N.C.	Global
Region: Habitat Comments (Counties of Occurrence)				
<i>Turritis glabra</i> Tower Mustard M: mountain forests and meadows (Avery, Madison*, Watauga)	E		S1	G5
<i>Urtica chamaedryoides</i> Dwarf Stinging Nettle C: rich blackwater and brownwater levee forests (Bertie, Halifax, Johnston, Northampton)	T		S2	G4G5
<i>Utricularia cornuta</i> Horned Bladderwort CM: bogs, limesink ponds (Ashe, Brunswick, Columbus, Franklin, New Hanover, Robeson*, Rutherford, Watauga)	T		S1S2	G5
<i>Utricularia floridana</i> Florida Bladderwort C: natural lakes (Bladen*, Wayne*)	SR-T		SH	G3G5
<i>Utricularia geminiscapa</i> Two-flowered Bladderwort SC: seepage areas on Suffolk Scarp, beaver ponds (Beaufort, Cumberland, Hoke, Moore, Pender)	SC-V		S1	G4G5
<i>Utricularia macrorhiza</i> Greater Bladderwort C: pools and ponds (Dare, Hyde)	SR-O		S1?	G5
<i>Utricularia minor</i> Small Bladderwort M: bogs (Watauga*)	SC-H		SH	G5
<i>Utricularia olivacea</i> Dwarf Bladderwort C: limesink ponds, beaver ponds (Brunswick, Carteret, Craven*, Cumberland, Hoke, New Hanover, Onslow, Pender)	T		S2	G4
<i>Utricularia resupinata</i> Northeastern Bladderwort C: natural lakes (Columbus, Washington)	E		S1	G4
<i>Vaccinium angustifolium</i> Northern Lowbush Blueberry M: high elevation acidic forests and woodlands (Graham, Swain)	SR-P		S1	G5
<i>Vaccinium macrocarpon</i> Cranberry MC: bogs, seeps, pocosins (Alleghany, Ashe, Avery, Bladen*, Brunswick, Burke, Caldwell*, Cumberland, Currituck*, Dare, Haywood, Hyde, Transylvania, Tyrrell, Watauga)	T		S2	G5

Scientific Name	Status		Rank	
Common Name	N.C.	U.S.	N.C.	Global
Region: Habitat Comments (Counties of Occurrence)				
<i>Vandenboschia boschiana</i> Appalachian Filmy-fern M: spray zone of waterfalls, seeps over rock (Graham, Henderson*, Jackson, Macon, Polk*, Rutherford*)	E		S1	G4
<i>Verbesina walteri</i> Walter's Crownbeard M: rich cove forests (Henderson, Macon, Mitchell, Polk, Transylvania, Yancey)	SR-T		S1	G4
<i>Veronica americana</i> American Speedwell MC: seeps, bogs (Alleghany, Ashe*, Avery, Craven*, Madison, Mitchell*, Watauga, Yancey*)	T		S2	G5
<i>Viola appalachiensis</i> Appalachian Violet M: olivine barrens and alluvial forests (Clay, Jackson, Macon, Swain)	SC-V		S2	G4
<i>Viola walteri</i> Prostrate Blue Violet MP: rich cove forests and other rich forests (Jackson, Montgomery, Richmond, Stanly, Transylvania)	SR-O		S1	G4G5
<i>Waldsteinia lobata</i> Lobed Barren Strawberry M: streambanks and ravines (Jackson, Transylvania)	E		S1	G3
<i>Warea cuneifolia</i> Carolina Pineland-cress S: sandhills (Harnett*, Hoke)	E		S1	G4
<i>Woodsia appalachiana</i> Appalachian Cliff Fern M: cliffs, rock outcrops (Alleghany, Ashe, Buncombe*, Burke, Caldwell, Henderson, McDowell, Polk, Rutherford, Surry, Transylvania, Wilkes*)	SR-P		S2	G4
<i>Woodsia ilvensis</i> Rusty Cliff Fern M: cliffs, rock outcrops (Alleghany, Ashe, Surry)	E		S1	G5
<i>Xyris chapmanii</i> Chapman's Yellow-eyed-grass S: mucky sandhill seeps (Cumberland, Harnett, Hoke, Moore, Richmond, Scotland)	SR-D		S3	G3
<i>Xyris floridana</i> Florida Yellow-eyed-grass C: savannas (Brunswick, Carteret, Columbus, Hoke, Onslow, Pender, Robeson*)	SC-V		S1	G4G5

Scientific Name	Status		Rank	
Common Name	N.C.	U.S.	N.C.	Global

<i>Brachythecium rotaezanum</i> Rota's Feather Moss CMP: on bark or rock in cove forests (Avery*, Caldwell*, Camden*, Craven*, Durham*, Graham, Haywood, Jackson*, Jones*, Martin*, McDowell*, Mitchell*, Pasquotank*, Rowan*, Rutherford, Swain*, Transylvania, Watauga*)	SR-D		S1	G5
<i>Bruchia brevifolia</i> A Pygmy Moss C: soil of disturbed habitats (Harnett*, Pender*, Sampson)	SR-T		S1?	G3G4
<i>Bruchia carolinae</i> A Pygmy Moss S: sandy soil of roadsides, old fields, or other disturbed areas (Lee*)	SR-L		S1?	G3?
<i>Bruchia fusca</i> A Pygmy Moss S: sandy soil (Harnett*)	SR-T		SH	G1?
<i>Bruchia hallii</i> A Pygmy Moss C: sandy soil in open places (Pender*)	SR-T		SH	G2
<i>Bryocrumia vivicolor</i> Gorge Moss M: rocks and streambanks in humid gorges, spray zones of waterfalls (Jackson, Transylvania)	SR-T		SH	G1G2
<i>Bryoerythrophyllum ferruginascens</i> Rust Foot Moss M: on moist rocks or soil at high elevations (Jackson, Rutherford*)	SR-D		S1	G3G4
<i>Bryoerythrophyllum inaequalifolium</i> A Foot Moss M: on thin soil over shale (McDowell*)	SR-D		S1	G4?
<i>Bryoxiphium norvegicum</i> Sword Moss M: rocks in humid gorges, spray zones of waterfalls (Jackson, Macon, McDowell*, Transylvania)	SR-O		S1	G5?
<i>Bryum limbatum</i> A Moss P: low elevation rocky summits (Rutherford)	SR-D		S1?	G5?
<i>Bryum riparium</i> Riverside Bryum M: spray zones of waterfalls (Transylvania*)	SR-D		SH	G2G4

Scientific Name	Status		Rank	
Common Name	N.C.	U.S.	N.C.	Global
Region: Habitat Comments (Counties of Occurrence)				
<i>Buxbaumia aphylla</i> Bug-on-a-stick M: forests, roadside banks (Haywood*)	SR-O		SH	G5
<i>Buxbaumia minakatae</i> Hump-backed Elves M: on rotten logs and stumps in mountain forests (Avery*, Watauga*)	SR-T		SH	G2G4
<i>Campylium stellatum</i> Yellow Starry Fen Moss M: fens (Ashe)	SC-V		S1	G5
<i>Campylopus atrovirens</i> var. <i>atrovirens</i> Black Fish Hook Moss M: near crevices and seepage zones on exposed granite (Ashe*, Buncombe*, Haywood, Jackson*, Macon*, Transylvania)	SR-D		S1?	G4G5TNR
<i>Campylopus carolinae</i> Savanna Campylopus C: Obscure in xeric sandy soils or compact tufts of other mosses (Bladen, Brunswick, Carteret, Columbus, Cumberland, Sampson, Scotland)	SR-T		S1S2	G2
<i>Campylopus oerstedianus</i> Oersted's Campylopus P: granite flatrocks (Rutherford, Wake*)	SR-D		S1	G2G3
<i>Campylopus paradoxus</i> Paradoxical Campylopus M: high elevation rock outcrops (Avery*)	SR-D		S1	G5
<i>Cirriphyllum piliferum</i> Long Leaf Mustache Moss M: moist rocks, wet by seepage or waterfall spray (Alleghany*, Jackson, McDowell*, Swain*, Transylvania)	SR-P		S1	G5
<i>Cleistocarpidium palustre</i> Phascum Moss P: wet soil, sandy swamps (McDowell, Wake)	SR-D		S1	G5?
<i>Coscinodon cribrosus</i> Copper Grimmia MP: rock outcrops and cliffs (Alleghany*, Burke)	SR-T		S1	G3G4

Scientific Name	Status		Rank	
Common Name	N.C.	U.S.	N.C.	Global
Region: Habitat Comments (Counties of Occurrence)				
<i>Cryphaea nervosa</i> A Thread Cedar Moss MP: trunks of trees in humid forests, sometimes in swamp forests (Macon*, Moore*, Orange, Swain*)	SR-T		S1?	G4?
<i>Cyrto-hypnum pygmaeum</i> Pygmy Cyrto-hypnum Moss M: moist woods, over moist rocks (Rutherford*, Swain*)	SR-O		S1?	G4G5
<i>Dichelyma capillaceum</i> Hair Claw Moss P: bases of trees, stumps, or on rocks in places submerged at high water (McDowell, Mecklenburg*, Orange)	SR-P		S1?	G5
<i>Dichodontium pellucidum</i> Transparent Fork Moss M: seepage or spray zones of waterfalls on mafic or calcareous rocks (Ashe*, Buncombe*, Haywood*, Jackson*, Macon, McDowell*, Mitchell*, Swain*, Transylvania*, Yancey*)	SR-P		S2	G5
<i>Dicranella rufescens</i> Red Fork Moss MP: wet soil on banks of roads and streams (Burke, Durham*, Jackson, Macon*, Rutherford, Transylvania)	SR-O		S1?	G5?
<i>Dicranella varia</i> Variable Fork Moss MP: wet, calcareous soil, in open, disturbed places (Durham*, Granville, Macon*, Rutherford)	SR-O		S1?	G5
<i>Dicranum undulatum</i> Bog Broom-moss M: bogs, seeps (Avery, Buncombe*, Burke*, Haywood*, McDowell*, Yancey*)	SR-D		S1	G5
<i>Didymodon fallax</i> Fallacious Screw Moss M: soil, silt, sandstone, concrete, calcareous rock (McDowell*)	SR-O		SH	G5
<i>Didymodon tophaceus</i> Three-ranked Didymodon MP: on limestone, limy shale, clay in moist areas, seepages, waterfalls (McDowell*, Rowan)	SR-O		S1?	G5
<i>Ditrichum ambiguum</i> Ambiguous Ditrichum M: acidic cove forests (Macon)	SR-P		S1	G4?

Scientific Name	Status		Rank	
Common Name	N.C.	U.S.	N.C.	Global
Region: Habitat Comments (Counties of Occurrence)				
<i>Ditrichum rhynchostegium</i> Ditrichum Moss MP: sandy or clay soil, clearings in woods, over rocks and along streams (Jackson*, Macon*, Surry*, Transylvania*)	SR-T		S1?	G3G5
<i>Encalypta procera</i> Extinguisher Moss M: on moist calcareous rocks (Macon, McDowell)	SR-D		S1	G5
<i>Entodon compressus</i> Flattened Entodon MP: on moist calcareous rocks (Macon, McDowell*, Person*, Rockingham*)	SR-P		S1	G4
<i>Entodon concinnus</i> Lime Entodon M: on moist calcareous rocks (McDowell*)	SR-P		S1	G4G5
<i>Entodon sullivantii</i> Sullivant's Entodon M: on rocks or bark in humid gorges and cove forests (Buncombe*, Burke, Caldwell*, Graham*, Jackson, Macon, McDowell, Polk*, Swain, Transylvania)	SR-O		S2	G3G4
<i>Ephemerum cohaerens</i> Northern Short-lived Moss P: moist or drying disturbed soil (Durham*)	SR-T		SH	G4G5
<i>Eucladium verticillatum</i> Lime-seep Eucladium M: on moist calcareous rocks (McDowell)	SR-O		S1	G4
<i>Fissidens amoenus</i> Hall's Pocket Moss C: on bark in cypress-gum swamps (Jones*)	SR-T		S1	G2
<i>Fissidens asplenioides</i> A Plume Moss P: sandstone ledges and crevices in moist ravines and grottoes, along streams and waterfalls (Stokes*)	SR-O		SH	G3G5
<i>Fissidens hallianus</i> A Plume Moss C: on bark in cypress-gum swamps (Beaufort*)	SR-O		SH	GNRQ
<i>Fissidens scalaris</i> A Plume Moss P: bare, disturbed soil of stream banks and roadsides (Mecklenburg*)	SR-O		SH	G2?

NORTH CAROLINA PLANT LIST – WATCH

The North Carolina Plant Watch List includes species that are rare or uncommon, are not well studied, or are otherwise threatened with serious decline but for which current information does not justify placement on the Rare List by the NCNHP. Watch List species can be indicators of significant habitats, and their presence should be considered in planning natural area protection efforts, though obviously with less weight than higher priority rare species and natural communities. The NCNHP maintains files on these species but does not include them in its GIS maps or database files. Plants placed on this list fall into a number of categories, discussed below. The NCNHP requests additional information about these species in order to clarify their status and reclassify them into other appropriate and more specific categories. Counties of known occurrence are listed for most groups.

Reasons for the current placement of species on the Watch List rather than at a high rarity status (Endangered, Threatened, Special Concern, or Significantly Rare) vary. The taxonomic validity of some of these species is currently in doubt. For many of them, the NCNHP lacks adequate documentation of their historic or present extent in North Carolina. Others are known to be rare or uncommon in North Carolina but may not be native to the state, and they may or may not be declining. Some others may not necessarily be rare yet, but they are undergoing significant losses of or disturbances to their habitats. For most species, however, their actual rarity is poorly known and we are **requesting more data for every Watch List category** before such species receive a higher, and more formal, rarity status. Plant survey forms are provided online at <https://www.ncnhp.org/share-data/contribute-your-data/plant-survey-form>. People may complete the online survey form or download the form and email completed forms to natural.heritage@ncdcr.gov or mail to: N.C. Natural Heritage Program; MSC 1651; Raleigh, NC 27699-1651.

The Watch List has been divided into categories, which have been devised to indicate the reasons for each species' current placement. These categories and their descriptions have been developed by the NCNHP. A number of species have been placed in two Watch categories because it is believed they may be at risk for at least two reasons.

CATEGORY	DESIGNATION	DESCRIPTION
W1	Rare but Relatively Secure	Species whose status in N.C. is relatively well known and appear to be relatively secure at this time. While still notably rare, these species do not currently require site-specific monitoring and so are not on the Rare List. Many of these species were formerly on the Rare List; they are retained in this category because they require a lower level of continued monitoring to ensure their long-term
W2	Rare but Questionable Taxonomy	Species including taxa of dubious validity and taxa under study and potentially to be named. If further study reveals that these are valid taxa, they would warrant addition to the Rare List. This category has been used for named and unnamed taxa that currently appear to have some significant chance of being proven valid.
W3	Rare but Questionable Documentation	Species that have been reported from N.C. without adequate documentation. These species should be listed at a higher level when their reported occurrence in N.C. is verified. This category includes sight records, old and vague reports for which no documentation has appeared, and, in a few cases, more recent literature reports for which we have not yet received documentation.

CATEGORY	DESIGNATION	DESCRIPTION
W4	Rare but Possibly Not Native	Species known to occur in N.C. that current data suggest are not native to N.C. but whose native occurrence is these species were previously listed at a higher level, but field investigations suggest that all known N.C. occurrences are introductions.
W5	Rare because of Severe Decline to Population or Habitat	Species that have declined sharply in N.C. but do not appear yet to warrant site-specific monitoring. Most species in this category have undergone declines of more than 50% (in many cases more than 90%) from their pre-Columbian status. Reasons for decline include exotic pests or pathogens, massive modification of the landscape, suppression of natural fires, and failure of reproduction. Because many of these species were once abundant or even dominant in parts of N.C., they may still be fairly common or frequently encountered, despite the strong decline. If current trends continue, however, many of these species will be threatened with extirpation in all or a major part of their
W6	Regionally Rare	Species that are rare in one region of North Carolina while being uncommon to abundant within another region. These regional rarities, generally within-state disjuncts, are significant for protection of genetic variation and long-term viability of species. W6 plants are listed immediately following the Watch List in this volume.
W7	Poorly Known in NC	Species with inadequate information about their distribution and rarity in N.C. These are generally species not previously listed as rare in N.C. but which appear to be so based on herbarium or museum records and field experience of NCNHP staff, consultants, and cooperating scientists. Further information is needed to determine the true status of

<i>Solidago tarda</i> Atlantic Goldenrod P: dry, disturbed roadside (Burke, McDowell, Rutherford)	W3		S1?	G4?Q
<i>Spergularia marina</i> Saltmarsh Sandspurrey T: salt marshes and tidal flats (Brunswick*, Carteret, Currituck*, Dare, Hyde*, Onslow, Pamlico*)	W7		S2	G5
<i>Sphenopholis intermedia</i> Slender Wedgegrass MPC: moist nutrient-rich forests, barrens, meadows (Ashe*, Cabarrus*, Caldwell*, Graham*, Guilford*, Haywood*, Madison*, Martin*, Mitchell*, Rutherford, Stokes*)	W7		S2	G5
<i>Spiraea alba</i> Narrow-leaf Meadowsweet M: bogs (Alleghany, Ashe, Avery, Buncombe*, Clay*, Henderson, Jackson*, Macon, Transylvania, Wilkes*)	W1		S2	G5
<i>Spiraea latifolia</i> Broadleaf Meadowsweet M: bogs (Alleghany, Ashe, Avery*, Jackson*, Macon, Surry*, Transylvania*)	W7		S2?	G5
<i>Spirodela polyrrhiza</i> Common Water-flaxseed C: pools, stagnant waters (Bertie, Bladen, Currituck, Dare, Gates, Granville, Pender, Perquimans*, Washington)	W7		S4	G5
<i>Sporobolus pinetorum</i> Carolina Dropseed CS: wet savannas (Bladen, Brunswick, Columbus, Cumberland, Duplin, Greene*, Harnett, Hoke, Jones, Lenoir*, Onslow, Pender, Richmond, Robeson*, Sampson*, Scotland)	W1		S3	G3
<i>Stachys aspera</i> Rough Hedge-nettle PS: moist or wet sandy soil of savannas, marshes, or swamp forests (Moore, Person)	W7		S2	G4?
<i>Stachys hyssopifolia</i> var. <i>hyssopifolia</i> Hyssopleaf Hedge-nettle CP: moist soils of savannas, marshes, seasonally flooded sinkhole ponds, roadside ditches, utility easements (Burke*, Columbus*, Davidson*, Harnett, Hoke, Jones*, Onslow, Scotland*, Stanly*)	W7		S2	G5T4T5
<i>Stellaria alsine</i> Longstalk Starwort MP: seeps and riverbanks (Buncombe, Graham, Haywood, Henderson, Madison, Polk, Transylvania)	W1		S3?	G5

Scientific Name	Status		Rank	
Common Name	N.C.	U.S.	N.C.	Global
Region: Habitat Comments (Counties of Occurrence)				
<i>Stellaria corei</i> Core's Starwort MP: coves, seeps, northern hardwood forests (Ashe, Avery, Buncombe, Burke, Caldwell*, Catawba*, Clay, Haywood, Jackson, Macon, Madison, Mitchell, Polk, Swain, Watauga, Yancey)	W1		S3	G4
<i>Stuckenia pectinata</i> Sago Pondweed CT: brackish and alkaline waters (Currituck*, Dare*)	W1		S2?	G5
<i>Symphotrichum elliotii</i> Elliott's Aster C: freshwater to brackish marshes, swamps, and ditches (Beaufort*, Brunswick, Chowan*, Dare*, Duplin*, Jones, New Hanover*, Onslow*, Pasquotank*, Pender, Tyrrell*)	W1		S2S3	G4
<i>Symphotrichum lanceolatum</i> var. <i>lanceolatum</i> Panicled Aster P: sunny, wet meadows (Ashe, Hyde, McDowell)	W7		S2?	G5T5
<i>Symphotrichum novae-angliae</i> New England Aster MP: wet meadows, bogs (Ashe*, Avery, Buncombe, Cherokee*, Clay, Gaston, Graham*, Haywood*, Henderson, Jackson, Johnston*, Macon, Richmond*, Surry*, Watauga*)	W1		S3	G5
<i>Symphotrichum simmondsii</i> Simmonds' Aster CP: wet ditches (Beaufort*, Brunswick, Carteret*, Columbus*, Currituck*, Dare, Hyde*, New Hanover*, Pender)	W1		S2S3	G4G5
<i>Syngonanthus flavidulus</i> Yellow Hatpins C: ditches, pocosin ecotones, savannas (Bladen, Brunswick, Carteret, Craven*, Cumberland, New Hanover*, Onslow, Pender, Sampson)	W1		S3	G5
<i>Tetragonotheca helianthoides</i> Pineland Squarehead CMP: sandy woodlands, forests, roadsides (Burke, McDowell, Mecklenburg, Rutherford)	W1		S3?	G5
<i>Thermopsis villosa</i> Aaron's-rod M: forests and openings (Avery, Cherokee*, Clay, Graham, Haywood, Jackson*, Macon, Madison*, Surry*, Swain, Transylvania)	W7		S2?	G3?
<i>Thuja occidentalis</i> American Arborvitae M: calcareous bluffs and rocky slopes (Alleghany?, Ashe?, Burke?)	W3		SU	G5

Scientific Name	Status		Rank	
Common Name	N.C.	U.S.	N.C.	Global
Region: Habitat Comments (Counties of Occurrence)				
<i>Tilia americana</i> var. <i>americana</i> American Basswood MP: rich cove forests (Buncombe, Burke, Catawba, Cherokee, Davidson*, Person, Swain*, Wake*, Watauga*)	W7		S1?	G5T5
<i>Tradescantia hirsuticaulis</i> Hairy Spiderwort MP: dry rocky woodlands and rock outcrops (Catawba, Cherokee, Jackson, Macon, Madison, McDowell, Orange*, Rutherford, Wake)	W7		S2	G5
<i>Trepocarpus aethusae</i> White-nymph P: rich moist forests, bottomlands (Durham)	W7		S1	G4G5
<i>Tridens carolinianus</i> Carolina Triodia S: sandhills and pine flatwoods (Brunswick*, Cumberland, Harnett, Hoke, Moore, Richmond, Scotland)	W1		S3	G3G4
<i>Trillium rugelii</i> Southern Nodding Trillium PM: rich woods and coves over mafic and calcareous rocks (Avery, Buncombe, Burke, Cherokee, Davie, Guilford*, Haywood, Henderson, Macon, Madison, McDowell, Mecklenburg*, Mitchell*, Polk, Richmond, Rutherford, Transylvania, Yancey)	W1		S3	G4
<i>Triosteum angustifolium</i> var. <i>angustifolium</i> Smooth Lesser Horse-gentian P: mesic forests, bluffs, outcrops, especially over calcareous or mafic rocks (records not yet entered) (Cabarrus*, Caswell, Durham, Granville, Guilford*, Mecklenburg*, Orange*, Randolph*)	W7		S2	G5
<i>Triosteum angustifolium</i> var. <i>eamesii</i> Hairy Lesser Horse-gentian M: mesic forests, bluffs, outcrops, especially over calcareous or mafic rocks (Cabarrus*, Caswell, Durham, Granville, Guilford*, Mecklenburg*, Orange*, Randolph*)	W3		S1?	G5TNRQ
<i>Triosteum aurantiacum</i> var. <i>aurantiacum</i> Early Horse Gentian MP: rich cove forests over mafic rocks (Ashe, Graham, Granville, Haywood, Jackson, Macon, Madison, McDowell*, Transylvania)	W7		S2	G5T5
<i>Triphora trianthophoros</i> var. <i>trianthophoros</i> Three Birds Orchid CMP: moist forests (Ashe*, Avery, Buncombe, Burke, Carteret, Cherokee, Clay, Dare, Graham, Haywood, Henderson, Jackson*, Macon, McDowell, Polk*, Swain, Transylvania, Yancey)	W1		S2S3	G4?T4?

Scientific Name

Common Name	Status		Rank			
	Region:	Habitat Comments (Counties of Occurrence)	N.C.	U.S.	N.C.	Global
<i>Tsuga canadensis</i>			W5		S4S5	G5
Eastern Hemlock						
MP: moist soils (Alexander, Alleghany, Ashe, Avery, Buncombe, Burke, Caldwell, Cherokee, Clay, Cleveland, Graham, Haywood, Henderson, Jackson, Macon, Madison, McDowell, Mitchell, Orange, Polk, Rutherford, Stokes, Surry, Swain, Transylvania, Wake, Watauga, Yancey)						
<i>Tsuga caroliniana</i>			W5		S2	G2G3
Carolina Hemlock						
MP: open forests on ridgetops, rocky bluffs, or gorge walls (Alexander, Ashe, Avery, Burke, Catawba, Cleveland, McDowell, Mecklenburg*, Rutherford, Stokes, Surry, Transylvania)						
<i>Ulmus serotina</i>			W3		SH	G4
September Elm						
M: mesic limestone forests (Madison*)						
<i>Utricularia foliosa</i>			W3		SU	G5
Leafy Bladderwort						
C: habitat in North Carolina not known						
<i>Vaccinium hirsutum</i>			W1		S3	G4
Hairy Blueberry						
M: ridgetop red oak forests, oak hickory forests, pine oak heath (Cherokee, Graham, Macon, Swain)						
<i>Vaccinium virgatum</i>			W7		S1S2	G4
Small-flower Blueberry						
S: pocosins, blackwater swamps, mesic pine flatwoods, sandhill seeps (Brunswick, Craven, Cumberland, Hoke, Jones, Moore, Pender, Pitt, Richmond, Robeson, Scotland, Wake)						
<i>Valerianella umbilicata</i>			W7		SH	G4G5
Woodland Cornsalad						
PM: rich woods and disturbed sites (Forsyth*, Randolph*, Stokes*, Swain*)						
<i>Verbena hastata</i>			W7		S2S3	G5
Blue Vervain						
CMP: marshes, bogs, and fields (Alleghany, Ashe, Buncombe, Burke, Onslow, Wake)						
<i>Verbena scabra</i>			W7		S2?	G5
Sandpaper Vervain						
CT: marsh edges, shell middens (Bladen*, Brunswick*, Carteret*, Chowan*, Currituck*, Hyde*, New Hanover*, Onslow, Pender, Pitt)						
<i>Verbesina helianthoides</i>			W3		SU	G5
A Crownbeard						
M: habitat in North Carolina not known						

Scientific Name Common Name	Status		Rank

<i>Amphidium mougeotii</i>			W7		S2?	G5
Mougeot's Yoke Moss						
M: Seasonally wet crevices of neutral to acidic cliffs (Ashe*, Haywood*, Jackson, Macon, Polk*, Transylvania*, Watauga*)						
<i>Anacamptodon splachnoides</i>			W7		S2?	G3G5
Knothole Moss						
MP: bark of trees (Burke*, Chatham*, Clay*, Durham*, Graham*, Haywood*, Henderson*, Jackson, Macon*, McDowell, Mitchell*, Moore*, Orange*, Stokes*, Yancey*)						
<i>Andreaea rothii</i>			W7		S2?	G5
Roth's Andreae Moss						
M: wet rocks and seepages at high elevation (Buncombe, Haywood, Jackson, Macon*, McDowell*, Stokes*, Swain*, Transylvania, Wilkes, Yancey)						
<i>Andreaea rupestris</i>			W1		S2?	G5
Rock Split Moss						
MP: rock, typically acidic (Buncombe*, Burke, Jackson, Mitchell*, Rutherford)						
<i>Anomobryum julaceum</i>			W7		SH	G5
Common Silver Moss						
M: high elevations on soil and rocks (Ashe*, Jackson*, Macon*, Rutherford*, Transylvania*)						
<i>Archidium ohioense</i>			W7		SH	G4G5
Tokyo Soil Moss						
CMP: open ground of old fields or meadows (Cumberland*, Durham*, Forsyth*, Transylvania*)						
<i>Atrichum altecristatum</i>			W7		S2?	G5
A Catherinea Moss						
MP: open or semishaded soils, usually low elevations (Buncombe*, Burke, Jackson, Macon, Orange, Transylvania)						
<i>Atrichum cylindricum</i>			W7		S2?	G5
A Catherinea Moss						
CP: moist soils of ditches and stream banks in bottomlands and swamp forests (Bertie*, Columbus*, Craven, Currituck, Franklin*, Johnston, Moore*, Orange)						
<i>Atrichum tenellum</i>			W7		S1?	G4G5
A Catharinea Moss						
P: wet depressions and bogs (McDowell, Rutherford)						
<i>Barbula indica</i> var. <i>indica</i>			W7		S2?	G5?T5?
Small Twist Teeth Moss						
CMP: soil, clay, limestone, cement, walls (Beaufort*, Brunswick*, Columbus*, Forsyth*, Macon*, McDowell*, New Hanover*, Pender*)

<i>Blindia acuta</i> Sharp-pointed Weissia M: moist or dripping acidic rock faces (Graham*, Jackson, Transylvania*, Wilkes*)	W7		S2?	G5
<i>Brachelyma subulatum</i> A Moss CP: bases of trees or on hard surfaces in swampy areas (Bladen, Columbus, Greene*, Hertford*, McDowell, Mecklenburg*)	W7		S2?	G4G5
<i>Brachytheciastrum velutinum</i> Velvet Moss M: high elevation forests (Buncombe, Rutherford)	W7		S1?	G5
<i>Brachythecium acuminatum</i> var. <i>cyrtophyllum</i> Acuminate Brachythecium M: tree trunks, hardwood forests (Macon)	W7		S2?	G5TNR
<i>Brachythecium oedipodium</i> Sprawling Grass Moss M: on humus, rocks in moist, shaded areas, spruce-fir forest (Jackson*, Polk*, Swain*)	W7		S2?	G5
<i>Brachythecium reflexum</i> Reflexed Feather Moss M: on trees and boulders (Jackson, Watauga)	W7		S2?	G5
<i>Brachythecium rutabulum</i> Rough-stalked Feather Moss MP: trees, humus, rocks in wet forests (Avery*, Durham*, Jackson, Mecklenburg*, Rowan*, Swain*)	W7		S2?	G5
<i>Brachythecium salebrosum</i> Smooth-stalked Yellow Feather Moss MP: shaded sills, rocks, bases of trees, and logs in disturbed places (Forsyth*, Graham, Macon*, Watauga*, Yancey*)	W7		S2?	G5
<i>Brothera leana</i> Boar Moss MP: on logs in forests; on thin soil around rock outcrops (Ashe, Avery, Burke*, Haywood*, Jackson*, McDowell*, Rutherford*, Stokes, Surry, Watauga*)	W7		S2?	G3G4
<i>Bruchia ravenelii</i> A Pygmy Moss S: sandy soil of old fields and open woods (Cumberland*, Harnett*, Hoke*, Johnston*, Richmond*, Wake*)	W7		SH	G3?

Scientific Name

Common Name Region: Habitat Comments (Counties of Occurrence)	Status		Rank	
	N.C.	U.S.	N.C.	Global
<i>Bruchia texana</i> Texas Bruchia Moss CPS: moist clay or sandy soil in open areas (Durham*, Harnett*, Mecklenburg*, Pender*, Richmond*)	W7		SH	G3G5
<i>Bryhnia novae-angliae</i> Arrowhead Moss CM: soil, humus, or rotten logs of shady, wet places (Haywood, Macon, Martin*, Transylvania, Tyrrell)	W1		S2?	G5
<i>Bryoerythrophyllum recurvirostrum</i> A Red Foot Moss M: on soil, rock, and bark in forested boggy areas and stream banks (Clay*, Jackson, Macon*, Transylvania*)	W7		S2?	G5
<i>Campylostelium saxicola</i> Sandstone Grimmia M: acidic sandstone boulders and cliffs, and sandstone rock shelters (Macon*, Swain*, Transylvania*, Watauga*)	W7		S2?	G3G5
<i>Cryphaea ravenelii</i> A Thread Cedar Moss PC: on bark of trees (Anson*, Chatham*, Durham*, Halifax*, Harnett*, Hertford*, Person*)	W7		S2?	G3?
<i>Cynodontium schisti</i> Cynodontium Moss PM: rock crevices, thin soil over rock (Burke, McDowell*)	W7		S1	G3G5
<i>Dicranum bonjeanii</i> Thin-rib Curved-tail Moss M: mainly in eutrophic fens, sometimes on calcareous soil or rock (Ashe*, Avery*, Haywood*, Jackson*, Macon*, Mitchell*, Transylvania*, Yancey*)	W7		S2?	G5
<i>Dicranum fuscescens</i> Fuscous Moss MP: on trees, logs, soil, rock, and humus in woodlands, spruce-fir forest, occasionally bogs (Avery*, Buncombe, Burke, Graham*, Haywood*, Jackson*, Mitchell*, Stokes*, Swain*, Transylvania*, Yancey)	W7		S2?	G5
<i>Dicranum spurium</i> Rusty Fork Moss CMP: sandy soil, decayed logs, acidic rock, humus over rock, pine woods, sometimes bogs (Alexander*, Alleghany*, Avery*, Burke*, Carteret*, Franklin*, Jackson*, Macon*, Stokes*, Surry*)	W7		S2?	G5

Scientific Name

Common Name Region: Habitat Comments (Counties of Occurrence)	Status		Rank	
	N.C.	U.S.	N.C.	Global
<i>Diphyscium mucronifolium</i> Grain o'Wheat Moss MP: wet rocks at spray cliffs and cove forests (Burke, Graham)	W7		S1?	G4
<i>Elodium paludosum</i> Pond Fern Moss CMP: on soil, humus, trees, or logs in swamps, marshes, or meadows (Anson*, Camden, Caswell*, Columbus*, Durham*, Gates*, Granville*, Haywood*, Martin*, McDowell, Mecklenburg*, Orange, Pasquotank*, Stokes*, Watauga*)	W7		S2?	G3G5
<i>Entosthodon drummondii</i> A Cord Moss CPS: primarily sandy soils of disturbed, often wet areas (Durham*, Harnett*, Moore*, Pender*, Randolph*, Tyrrell*)	W7		SH	G4G5
<i>Ephemerum spinulosum</i> Emerald Dewdrops CP: moist or drying soil in disturbed, partly sunny areas, or on rotting wood (Columbus*, Durham, Mecklenburg*, Orange)	W7		S2?	G4G5
<i>Fabronia ciliaris</i> var. <i>polycarpa</i> A False Crushed-rice Moss CMPT: bark of trees, less commonly on rocks (Alexander*, Carteret*, Clay*, Cumberland*, Hyde*, Jackson*, Rowan*, Rutherford, Transylvania*, Washington*)	W7		S2?	G5T4T5
<i>Fissidens adianthoides</i> Maiden Hair Moss MP: wet areas on soil, around bases of trees, on decaying wood or calcareous rocks (Ashe*, Avery*, Brunswick*, Durham*, Forsyth*, Granville*, Jackson, Johnston*, McDowell, Rutherford, Transylvania)	W7		S1	G5
<i>Fissidens appalachensis</i> Appalachian Pocket Moss M: submerged in rapids of moderate to high elevation mountain streams (Buncombe*, Caldwell*, Jackson*, Macon*, McDowell*, Rutherford, Swain*, Watauga*)	W7		S2S3	G2G3
<i>Fissidens elegans</i> A Plume Moss CMP: sandy and clayey soils along roadsides and streams, on trees or stumps (Anson*, Columbus*, Cumberland*, Durham, Harnett, Hyde*, Jackson, Martin*, New Hanover*, Pender*, Rutherford, Sampson*, Stokes*)	W7		S2?	G5
<i>Fissidens exilis</i> Small Pocket Moss P: stream banks (Cleveland, Durham, Gaston*)	W4		SNA	G3G4

Scientific Name

Common Name	Status		Rank			
	Region:	Habitat Comments (Counties of Occurrence)	N.C.	U.S.	N.C.	Global
<i>Fissidens fontanus</i>			W7		S2?	G5
Water Pocket Moss						
PC: attached to various substrata in stagnant and flowing water, and in coastal estuaries (Anson*, Craven*, Durham*, Franklin*, Gates*, Jackson, Jones*, Macon*, Mecklenburg*, New Hanover*, Orange, Pitt, Transylvania)						
<i>Fissidens polypodioides</i>			W7		S2?	G4G5
A Moss						
M: calcareous soil, and limestone rocks along streams and in ravines (Transylvania)						
<i>Fontinalis flaccida</i>			W7		S2?	G4G5
A Water Moss						
CMP: bases of trees in brooks or swamps, submerged (Bladen*, Brunswick*, Columbus*, Harnett, Jackson, Macon, Mitchell*, Wake*)						
<i>Fontinalis sullivantii</i>			W7		S2?	G3G5
A Water Moss						
CM: rocks or trees in pools or streams (Brunswick*, Columbus*, Gates*, Macon, Mitchell*, Nash)						
<i>Funaria serrata</i>			W7		SH	G4
A Cord Moss						
CP: on soil of disturbed places, near streams or ditches (Chatham*, Durham*, Forsyth*, Gaston*, Hertford*, Johnston*, Nash*, Randolph*)						
<i>Grimmia olneyi</i>			W7		S2?	G3G5
A Beard Moss						
MP: faces of dry to periodically wet rocks, along streams or splash zones of lakes (Alexander*, Alleghany*, Burke*, Forsyth*, Jackson*, Macon*, Montgomery*, Polk*)						
<i>Herpetineuron toccoae</i>			W7		S2?	G4G5
Coiled Moss						
M: bark of trees or calcareous to noncalcareous rocks (Graham*, Jackson*, McDowell*, Transylvania)						
<i>Hygroamblystegium fluviatile</i>			W7		S2?	G5
Brookside Feather Moss						
CMP: wet, calcareous rocks (Avery*, Burke*, Harnett, McDowell*, Wake)						
<i>Hypnum fauriei</i>			W7		S2?	G5
A Cedar Moss						
MP: logs and tree bases in deciduous forest (Haywood, Jackson, Johnston*, Macon, Moore*, Orange, Swain*, Transylvania, Watauga, Yancey)						

Scientific Name

Common Name	Status		Rank	
	N.C.	U.S.	N.C.	Global
<i>Hypnum plicatum</i> A Cedar Moss M: epiphytic, terrestrial, and on humus over rock (Haywood*, Jackson, Swain*, Transylvania*, Yancey*)	W7		S2?	G5
<i>Leskea australis</i> A Dusky Moss P: lower parts of hardwood trees and bald cypress and logs in woods along rivers, swamps (Orange)	W7		S2?	G4
<i>Leucodon andrewsianus</i> Squirrel Tail Moss M: trunks of trees, occasionally on rocks (Ashe*, Haywood*, Jackson, Macon*, Rutherford*, Watauga)	W7		S2?	G5
<i>Micromitrium megalosporum</i> A Moss CMP: unfertilized bare soil, in sun or partial shade (Bladen*, Columbus*, Durham*, Mecklenburg*, Transylvania*, Wilson*)	W7		S2?	G4
<i>Philonotis longiseta</i> An Apple Moss CMP: soil or rock, often on wet embankments (Alleghany*, Forsyth*, Haywood*, Jackson*, Jones*, Lee*, McDowell*, Stokes*, Swain*, Transylvania)	W7		S2?	G3G4
<i>Philonotis marchica</i> An Apple Moss CMP: rocks and soil in wet places, roadsides, springs (Forsyth*, Franklin*, Harnett*, Haywood*, Jackson, Macon, McDowell*, Rutherford, Swain*, Tyrrell, Watauga)	W7		S2?	G5
<i>Platydictya subtilis</i> A Moss CMP: bark at base of hardwoods, rarely on logs (Brunswick*, Clay*, Currituck, Durham*, Haywood, Jackson, McDowell, Surry, Transylvania, Watauga)	W7		S2?	G5
<i>Pohlia longicolla</i> Long Neck Nodding Moss M: rocks on cliffs, in crevices, on humus or soil (Jackson, Swain*, Yancey*)	W1		S2?	G4G5
<i>Pohlia rabunbaldensis</i> A Moss M: high elevation hardwood forest (Buncombe)	W7		S1	G1
<i>Polytrichastrum appalachianum</i> Appalachian Haircap Moss MP: rocky summits, mostly in high elevations (Ashe, Avery, Buncombe*, Burke*, Haywood*, Jackson, Macon*, Mitchell, Stokes, Transylvania*, Watauga, Yancey*)	W1		S3	G3

Scientific Name	Status		Rank	
Common Name	N.C.	U.S.	N.C.	Global
Region: Habitat Comments (Counties of Occurrence)				
<i>Pterigynandrum filiforme</i> Twisted Thread Moss M: mesic, acidic boulders and rock shelves (Buncombe*, Jackson, McDowell*, Mitchell*, Swain*)	W7		S1	G5
<i>Pylaisia polyantha</i> Many-fruited Feather Moss MP: on tree trunks and bases or logs (Forsyth*, Haywood, Mitchell*, Rutherford, Transylvania*)	W1		S2?	G5
<i>Rauiella scita</i> Smaller Fern Moss M: on rocks, trees, logs (Alexander*, Alleghany*, Ashe*, Avery*, Haywood*, Jackson*, Macon*, McDowell*, Transylvania*, Watauga*, Wilkes*, Yancey*)	W7		S2?	G3G5
<i>Sciuro-hypnum plumosum</i> Rusty Feather Moss CM: moist, acid rocks in or near streams (Columbus*, Harnett*, Haywood, Jackson, McDowell, Rutherford, Transylvania, Watauga, Yancey*)	W7		S2?	G5
<i>Sphagnum cribrosum</i> Florida Peatmoss CS: in blackwater streams; ditches (Beaufort*, Bladen, Brunswick*, Carteret*, Craven, Duplin*, Sampson*)	W7		S2?	G3
<i>Sphagnum fitzgeraldii</i> Fitzgerald's Peatmoss C: pocosins and savannas (Bladen, Brunswick, Carteret, Craven, Duplin*, Onslow, Pamlico, Pender)	W1		S2S3	G3
<i>Sphagnum henryense</i> Peatmoss CMP: bogs (Alleghany, Anson, Beaufort, Bladen, Brunswick*, Carteret*, Craven, Cumberland, Gates*, Hyde, Iredell*, Jackson, Johnston*, Moore*, Onslow, Pender*, Richmond*, Robeson*, Sampson*, Scotland, Tyrrell)	W1		S2S3	G4?
<i>Sphagnum subtile</i> Peatmoss M: bogs and near wet rock outcrops (Ashe, Avery*, Haywood, Jackson, Macon, Swain, Transylvania*, Watauga)	W1		S3	G5
<i>Thuidium alleniorum</i> Fernmoss CP: on soil, logs, exposed roots, and tree bases in swamps, often just above water line (Bertie*, Bladen*, Brunswick*, Carteret*, Chatham*, Columbus, Craven*, Davie*, Durham*, Gates*, Granville*, Lenoir*, McDowell, Pasquotank, Pender*, Tyrrell*, Wilkes)	W7		S2?	G3G5

Scientific Name

Common Name	Status		Rank

Watch Category 6 (regionally rare) includes species which are rare in one region of North Carolina, while being uncommon to abundant within another region. These regional rarities, generally within-state disjuncts, are significant for protection of genetic variation and long-term viability of species.

A list of North Carolina's rare plants is determined by the political boundaries of the state. Biological rarity, however, is determined by the natural boundaries of physiography, geology, soils, and climate. These and other physical, biological, and historical factors have determined the evolutionary history and phytogeography of plants currently occupying what is now called "North Carolina." Rarity in one part of the state can have as much biological significance as disjunctions from another state. Disjunct populations nearly always have some level of genetic differentiation from populations in the main part of a species' range. If this genetic differentiation is great enough the disjunct population may be recognized as a separate species, subspecies, or variety. In many cases, however, the genetic differentiation is not great enough (or is not obvious enough with the relatively crude taxonomic tools which have been applied to most taxa) to have warranted the naming of a distinct taxon. Further study will likely show that many disjunct populations do warrant taxonomic status. Preservation of biodiversity requires not only preventing the extinction of species, but also maintaining genetic diversity within the species. The long-term viability of a species is dependent on the genetic diversity represented within and between different populations of the species. Disjunct and peripheral populations are especially likely to contain genetic material rare or absent in the bulk of the species' populations. Moreover, within-state disjunctions are likely to serve as indicators of regionally unique or unusual habitats. Attention to such species is especially important in county natural area inventories and regional planning.

The following list of Watch Category 6 plants is not exhaustive but represents some of the most important and significant within-state disjunctions. Emphasis is placed on species which are disjunct rather than peripheral — that is, which have a demonstrable gap in their North Carolina ranges. Examples are *Rhododendron catawbiense*, which is rather common at high to medium elevations in the mountains, but occurs in small, disjunct populations in the lower Piedmont and upper Coastal Plain, and *Pogonia ophioglossoides*, a primarily Coastal Plain species, occurring in rare bogs in the mountains.

SANDHILLS

Comptonia peregrina
Drosera rotundifolia
Kalmia buxifolia
Pinguicula caerulea
Pleea tenuifolia
Rhododendron catawbiense
Rhododendron minus
Magnolia tripetala
Pellaea atropurpurea
Platanthera lacera
Viola blanda

COASTAL PLAIN

Castilleja coccinea
Clematis ochroleuca
Clematis virginiana
Delphinium tricorne
Kalmia buxifolia
Ranunculus hispidus
Symphyotrichum cordifolium

MOUNTAINS

Aristida virgata
Bartonia virginica
Brasenia schreberi
Calopogon tuberosus var. *tuberosus*
Cardamine bulbosa
Chamaedaphne calyculata
Clematis crispa
Coreopsis gladiata
Cuscuta corylii
Eriocaulon compressum
Eriocaulon decangulare var. *decangulare*
Eryngium integrifolium
Gaylussacia dumosa
Kalmia carolina
Lespedeza angustifolia

Orontium aquaticum
Platanthera cristata
Pogonia ophioglossoides
Pycnanthemum flexuosum
Rhynchospora gracilentata
Sabatia brachiata
Sium suave
Smilax laurifolia
Sphagnum cuspidatum
Sphagnum strictum
Sphagnum tenerum
Toxicodendron vernix
Triadenum virginicum
Utricularia biflora
Utricularia subulata

PIEDMONT

Aconitum uncinatum (lower Piedmont only)
Actaea pachypoda
Aralia nudicaulis
Asplenium montanum (lower Piedmont only)
Berchemia scandens
Campanulatum americanum
Carex torta
Dicentra cucullaria
Dryopteris intermedia
Eleocharis microcarpa var. *filiculmis*
Eriocaulon compressum
Eryngium integrifolium
Hydrophyllum canadense
Hydrophyllum virginianum
Lachnocaulon anceps
Diphasiastrum tristachyum
Magnolia virginiana var. *virginiana*
Micranthes micranthidifolia
Morella caroliniensis

Paronychia argyrocoma
Phalaris arundinacea
Pieris floribunda
Pinus strobus (lower Piedmont only)
Platanthera flava
Pogonia ophioglossoides
Rhododendron catawbiense
Rhynchospora chalarocephala
Salix humilis
Sarracenia flava
Sarracenia purpurea var. *venosa*
Schoenoplectus pungens var. *pungens*
Sium suave
Smilax laurifolia
Swida alternifolia
Symplocarpus foetidus
Tsuga canadensis (lower Piedmont only)
Xyris baldwiniana
Xyris curtissii
Xyris jupicai

PLANT TAXA ENDEMIC TO NORTH CAROLINA

This is a list of all taxa (including subspecies) considered to be strictly endemic to North Carolina. The list does not include taxa whose range barely extends into another state, such as taxa endemic to the Roan Mountain area or Great Smoky Mountains National Park.

SCIENTIFIC NAME	COMMON NAME	N.C. STATUS	U.S STATUS	N.C. RANK	GLOBAL RANK

EXPLOITED PLANT TAXA IN NORTH CAROLINA

Plant species listed as Exploited in N.C. were previously tracked on the Watch List (Category W5a). This includes taxa that are either rare or generally widespread that are in commercial demand and often collected from wild populations. Such collection can cause local extirpation and is not sustainable over time. The NCNHP requests information on illegal collection incidents but does not otherwise maintain occurrence records for Exploited taxa that are not Significantly Rare or on the Watch List.

SCIENTIFIC NAME	COMMON NAME	N.C. STATUS	U.S STATUS	N.C. RANK	GLOBAL RANK

POTENTIAL NEW TO NORTH CAROLINA PLANTS

The following list contains species of well-known plant groups that are not currently thought to occur in North Carolina, but which are considered to have some possibility of being found here based on their established range and habitat preferences. Most are species that occur in the adjacent states of South Carolina, Georgia, Tennessee, or Virginia in habitats at least relatively like habitats known to exist in North Carolina. The purpose of this list is to encourage and challenge field workers to find new state occurrences. This list should give field investigators an idea of some of the species that may be regular components of North Carolina's flora. While some of these species may have relatively remote chances of being found in North Carolina, the likelihood of finding new state records is greatly increased by awareness of the possibilities and by species-directed searching. New state records of native vascular plants are being found at a rate of about five per year. Our knowledge of North Carolina's flora is still quite imperfect. Many natural areas are being destroyed before they can be investigated, and it can be assumed that a number of native species have been extirpated from North Carolina before they were ever documented as occurring in the state.

Following each species is the North Carolina province in which the species is considered most likely to be found. Where possible, a description of the typical habitat of the species in the vicinity of North Carolina is also given. Sometimes, the nearest occurrence(s) to North Carolina is also listed.

SCIENTIFIC NAME	PROVINCE	STATE:	
		Adjacent County	HABITAT

SCIENTIFIC NAME	NEW N.C. STATUS	PREVIOUS N. C. STATUS	U.S. STATUS	N.C. RANK	GLOBAL RANK
<i>Anemone minima</i>	W7	W3	N/A	S1?	G3
<i>Sagittaria spatulata</i>	SR-P	W3	N/A	S1	G4

SCIENTIFIC NAME CHANGES TO THE PLANT LIST SINCE 2018

FORMER NAME	CURRENT NAME
<i>Alnus viridis</i> ssp. <i>crispa</i>	<i>Alnus crispa</i>
<i>Amphicarpum muhlenbergianum</i>	<i>Amphicarpum muehlenbergianum</i>
<i>Anastrophyllum saxicola</i>	<i>Sphenolobus saxicola</i>
<i>Anthoxanthum hirtum</i>	<i>Hierochloe hirta</i>
<i>Arabis pycnocarpa</i> var. <i>adpressipilis</i>	<i>Arabis adpressipilis</i>
<i>Astomum ludovicianum</i>	<i>Weissia ludoviciana</i>
<i>Baptisia australis</i> var. <i>aberrans</i>	<i>Baptisia aberrans</i>
<i>Barbilophozia attenuata</i>	<i>Neoorthocaulis attenuatus</i>
<i>Bigelowia nudata</i> ssp. <i>australis</i>	<i>Bigelowia nudata</i> var. <i>australis</i>
<i>Boechera missouriensis</i>	<i>Borodinia missouriensis</i>
<i>Botrychium lanceolatum</i> var. <i>angustisegmentum</i>	<i>Botrychium angustisegmentum</i>
<i>Brachymenium andersonii</i>	<i>Rosulabryum andersonii</i>
<i>Brachythecium plumosum</i>	<i>Sciuro-hypnum plumosum</i>
<i>Brachythecium populeum</i>	<i>Sciuro-hypnum populeum</i>
<i>Brachythecium velutinum</i>	<i>Brachytheciastrum velutinum</i>
<i>Calamagrostis porteri</i> ssp. <i>porteri</i>	<i>Calamagrostis porteri</i>
<i>Calystegia spithamea</i> ssp. <i>stans</i>	<i>Convolvulus stans</i>
<i>Campanula americana</i>	<i>Campanulastrum americanum</i>
<i>Campanula aparinoides</i> var. <i>aparinoides</i>	<i>Palustricodon aparinoides</i> var. <i>aparinoides</i>
<i>Carex aquatilis</i>	<i>Carex aquatilis</i> var. <i>substricta</i>
<i>Carex canescens</i> var. <i>disjuncta</i>	<i>Carex disjuncta</i>

FORMER NAME	CURRENT NAME
<i>Carex pedunculata</i>	<i>Carex pedunculata</i> var. <i>pedunculata</i>
<i>Carex tenera</i> var. <i>tenera</i>	<i>Carex tenera</i>
<i>Cephalozia connivens</i> var. <i>bifida</i>	<i>Fuscocephaloziopsis connivens</i> var. <i>bifida</i>
<i>Cephalozia macrostachya</i> ssp. <i>australis</i>	<i>Fuscocephaloziopsis macrostachya</i> ssp. <i>australis</i>
<i>Cephalozia pleniceps</i> var. <i>caroliniana</i>	<i>Fuscocephaloziopsis pleniceps</i> var. <i>caroliniana</i>
<i>Cephaloziella massalongi</i>	<i>Cephaloziella massalongoi</i>
<i>Chamerion platyphyllum</i>	<i>Chamaenerion angustifolium</i> ssp. <i>circumvagum</i>
<i>Cheilolejeunea myriantha</i>	<i>Cheilolejeunea discoidea</i>
<i>Chenopodium simplex</i>	<i>Chenopodiastrum simplex</i>
<i>Clematis occidentalis</i>	<i>Clematis occidentalis</i> var. <i>occidentalis</i>
<i>Chiloscyphus appalachianus</i>	<i>Lophocolea appalachiana</i>
<i>Chiloscyphus muricatus</i>	<i>Lophocolea muricata</i>
<i>Cladonia evansii</i>	<i>Cladina evansii</i>
<i>Coeloglossum viride</i> var. <i>virescens</i>	<i>Dactylorhiza viridis</i>
<i>Coelorachis cylindrica</i>	<i>Mnesithea cylindrica</i>
<i>Coptis trifolia</i> var. <i>groenlandica</i>	<i>Coptis trifolia</i>
<i>Cornus asperifolia</i>	<i>Swida asperifolia</i>
<i>Cornus canadensis</i>	<i>Chamaepericlymenum canadense</i>
<i>Cornus racemosa</i>	<i>Swida racemosa</i>
<i>Crataegus succulenta</i>	<i>Crataegus succulenta</i> var. <i>succulenta</i>
<i>Crinum americanum</i>	<i>Crinum americanum</i> var. <i>americanum</i>
<i>Cyperus odoratus</i> var. <i>engelmannii</i>	<i>Cyperus engelmannii</i>
<i>Dalea pinnata</i>	<i>Dalea pinnata</i> var. <i>pinnata</i>
<i>Dichantherium aciculare</i> ssp. <i>neuranthum</i>	<i>Dichantherium neuranthum</i>
<i>Drosera filiformis</i>	<i>Drosera filiformis</i> var. <i>filiformis</i>
<i>Echinodorus tenellum</i>	<i>Helanthium tenellum</i>
<i>Eleocharis halophila</i>	<i>Eleocharis uniglumis</i>
<i>Elymus virginicus</i> var. <i>halophilus</i>	<i>Elymus halophilus</i>
<i>Epidendrum magnoliae</i>	<i>Epidendrum conopseum</i>
<i>Euonymus atropurpureus</i> var. <i>atropurpureus</i>	<i>Euonymus atropurpureus</i>
<i>Fissidens hallii</i>	<i>Fissidens amoenus</i>
<i>Fleischmannia incarnata</i>	<i>Fleishmannia incarnata</i>
<i>Fragaria vesca</i> var. <i>americana</i>	<i>Fragaria americana</i>
<i>Geum fragarioides</i>	<i>Waldsteinia fragarioides</i>
<i>Geum lobatum</i>	<i>Waldsteinia lobata</i>
<i>Gratiola aurea</i>	<i>Gratiola lutea</i>
<i>Helodium paludosum</i>	<i>Elodium paludosum</i>
<i>Heteranthera multiflora</i>	<i>Heteranthera pauciflora</i>
<i>Houstonia purpurea</i> var. <i>calycosa</i>	<i>Houstonia lanceolata</i>
<i>Hypericum fraseri</i>	<i>Triadenum fraseri</i>
<i>Hypericum tubulosum</i>	<i>Triadenum tubulosum</i>
<i>Hymenocallis occidentalis</i>	<i>Hymenocallis occidentalis</i> var. <i>occidentalis</i>
<i>Krigia biflora</i> var. <i>biflora</i>	<i>Krigia biflora</i> ssp. <i>biflora</i>
<i>Lechea torreyi</i>	<i>Lechea torreyi</i> var. <i>congesta</i>
<i>Lejeunea dimorphophylla</i>	<i>Microlejeunea epiphylla</i>
<i>Leptochloa fascicularis</i> var. <i>maritima</i>	<i>Diplachne maritima</i>
<i>Liatrix scariosa</i> var. <i>scariosa</i>	<i>Liatrix scariosa</i>

FORMER NAME	CURRENT NAME
<i>Lilium canadense</i> var. <i>canadense</i>	<i>Lilium canadense</i>
<i>Lipocarpa micrantha</i>	<i>Cyperus subsquarrosus</i>
<i>Listera australis</i>	<i>Neottia bifolia</i>
<i>Lobelia</i> sp. 1	<i>Lobelia batsonii</i>
<i>Lopholejeunea muelleriana</i>	<i>Lopholejeunea nigricans</i>
<i>Lophozia capitata</i>	<i>Tritomaria capitata</i>
<i>Lophozia excisa</i>	<i>Lophozioopsis excisa</i>
<i>Lophozia heterocolpos</i>	<i>Mesoptychia heterocolpos</i>
<i>Lysimachia hybrida</i>	<i>Steironema hybridum</i>
<i>Lysimachia tonsa</i>	<i>Steironema tonsum</i>
<i>Manfreda virginica</i>	<i>Agave virginica</i>
<i>Marsupella emarginata</i> var. <i>latiloba</i>	<i>Marsupella emarginata</i> ssp. <i>emarginata</i>
<i>Metzgeria furcata</i> var. <i>setigera</i>	<i>Metzgeria setigera</i>
<i>Metzgeria temperata</i>	<i>Metzgeria consanguinea</i>
<i>Micropolypodium nimbatum</i>	<i>Moranopteris nimbata</i>
<i>Minuartia godfreyi</i>	<i>Mononeuria paludicola</i>
<i>Minuartia groenlandica</i>	<i>Mononeuria groenlandica</i>
<i>Minuartia uniflora</i>	<i>Mononeuria uniflora</i>
<i>Muhlenbergia glabriflora</i>	<i>Muhlenbergia glabrifloris</i>
<i>Oenothera fruticosa</i> var. <i>unguiculata</i>	<i>Oenothera unguiculata</i>
<i>Orbexilum lupinellum</i>	<i>Orbexilum lupinellus</i>
<i>Orbexilum pedunculatum</i> var. <i>pedunculatum</i>	<i>Orbexilum pedunculatum</i>
<i>Oxypolis canbyi</i>	<i>Tiedemannia canbyi</i>
<i>Panax trifolius</i>	<i>Nanopanax trifolius</i>
<i>Panicum lithophilum</i>	<i>Panicum philadelphicum</i> ssp. <i>lithophilum</i>
<i>Parthenocissus vitacea</i>	<i>Parthenocissus inserta</i>
<i>Persicaria glabra</i>	<i>Persicaria densiflora</i>
<i>Phlox divaricata</i>	<i>Phlox divaricata</i> var. <i>divaricata</i>
<i>Piriqueta caroliniana</i> var. <i>caroliniana</i>	<i>Piriqueta caroliniana</i>
<i>Pityopsis graminifolia</i> var. <i>graminifolia</i>	<i>Pityopsis graminifolia</i>
<i>Plagiochila corniculata</i>	<i>Plagiochila exigua</i>
<i>Plagiochila dubia</i>	<i>Plagiochila patula</i>
<i>Plagiochila ludoviciana</i>	<i>Plagiochila raddiana</i>
<i>Platanthera flava</i> var. <i>herbiola</i>	<i>Platanthera herbiola</i>
<i>Pohlia longicollis</i>	<i>Pohlia longicolla</i>
<i>Polygonum tenue</i>	<i>Duravia</i> sp. 2
<i>Polytrichum appalachianum</i>	<i>Polytrichastrum appalachianum</i>
<i>Ptilimnium nodosum</i>	<i>Harperella nodosa</i>
<i>Pylaisiella polyantha</i>	<i>Pylaisia polyantha</i>
<i>Rubus dalibarda</i>	<i>Dalibarda repens</i>
<i>Rubus idaeus</i> ssp. <i>strigosus</i>	<i>Rubus strigosus</i>
<i>Rubus repens</i>	<i>Dalibarda repens</i>
<i>Ruellia ciliosa</i> var. <i>ciliosa</i>	<i>Ruellia ciliosa</i>
<i>Schoenoplectus acutus</i>	<i>Schoenoplectus acutus</i> var. <i>acutus</i>
<i>Scutellaria mellichampii</i> (misapplied)	<i>Scutellaria incana</i> var. <i>australis</i>
<i>Scutellaria ovata</i> ssp. <i>rugosa</i> var. 1	<i>Scutellaria ovata</i> var. <i>rugosa</i>
<i>Seymeria pectinata</i>	<i>Seymeria pectinata</i> ssp. <i>pectinata</i>

FORMER NAME	CURRENT NAME
<i>Shortia galacifolia</i> var. <i>brevistyla</i>	<i>Shortia brevistyla</i>
<i>Shortia galacifolia</i> var. <i>galacifolia</i>	<i>Shortia galacifolia</i>
<i>Solidago patula</i> var. <i>strictula</i>	<i>Solidago salicina</i>
<i>Solidago ptarmicoides</i>	<i>Oligoneuron album</i>
<i>Solidago puberula</i> var. <i>puberula</i>	<i>Solidago puberula</i>
<i>Solidago rigida</i> var. <i>glabrata</i>	<i>Oligoneuron jacksonii</i>
<i>Solidago rigida</i> var. <i>rigida</i>	<i>Oligoneuron rigidum</i>
<i>Solidago rugosa</i> var. <i>sphagnophila</i>	<i>Solidago aestivalis</i>
<i>Solidago ulmifolia</i>	<i>Solidago ulmifolia</i> var. <i>ulmifolia</i>
<i>Sparganium emersum</i>	<i>Sparganium acaule</i>
<i>Spergularia salina</i>	<i>Spergularia marina</i>
<i>Splachnum pennsylvanicum</i>	<i>Splachnum pensylvanicum</i>
<i>Symphyotrichum laeve</i> var. <i>concinnum</i>	<i>Symphyotrichum concinnum</i>
<i>Thelypteris simulata</i>	<i>Coryphopteris simulata</i>
<i>Thuidium allenii</i>	<i>Thuidium alleniorum</i>
<i>Torreyochloa pallida</i> var. <i>pallida</i>	<i>Torreyochloa pallida</i>
<i>Tortula ammonsiana</i>	<i>Syntrichia ammonsiana</i>
<i>Tortula fragilis</i>	<i>Syntrichia fragilis</i>
<i>Tortula papillosa</i>	<i>Syntrichia papillosa</i>
<i>Trautvetteria caroliniensis</i> var. <i>caroliniensis</i>	<i>Trautvetteria caroliniensis</i>
<i>Trichostema</i> sp. 1	<i>Trichostema nesophilum</i>
<i>Trientalis borealis</i>	<i>Lysimachia borealis</i>
<i>Triosteum angustifolium</i>	<i>Triosteum angustifolium</i> var. <i>angustifolium</i>
<i>Trisetum spicatum</i>	<i>Koeleria spicata</i> ssp. <i>spicata</i>
<i>Veratrum woodii</i>	<i>Melanthium woodii</i>
<i>Viola walteri</i> var. <i>appalachiensis</i>	<i>Viola walteri</i>
<i>Weissia muehlenbergiana</i>	<i>Weissia muhlenbergiana</i>

Taxonomy and nomenclature of vascular plants generally follows Weakley, A.S. *Flora of the Southeastern United States, 2020 Edition*. University of North Carolina Herbarium (NCU), North Carolina Botanical Garden, University of North Carolina at Chapel Hill (available online at <https://ncbg.unc.edu/research/unc-herbarium/floras/>).

INDEX OF SCIENTIFIC NAMES

- Abdra aprica*, 159
Abies fraseri, 102
Acanthothecis fontana, 151, 157
Acanthothecis leucoxanthoides, 151, 164
Acanthothecis paucispora, 96, 164
Acer nigrum, 102
Acmella repens, 10
Acmispon helleri, 10, 165
Aconitum reclinatum, 10
Aconitum uncinatum, 156
Acrobolbus ciliatus, 90
Actaea pachypoda, 156
Actaea podocarpa, 158
Actaea racemosa, 158
Actaea rubifolia, 159
Adiantum capillus-veneris, 10
Adlumia fungosa, 10
Aeschynomene virginica, 10
Agalinis aphylla, 102
Agalinis auriculata, 159
Agalinis decemloba, 102
Agalinis linifolia, 102
Agalinis obtusifolia, 102
Agalinis plukenetii, 159
Agalinis virgata, 10
Agarista populifolia, 102
Agastache nepetoides, 10
Agave virginica, 102, 171
Agrostis altissima, 11
Agrostis mertensii, 11
Aletris farinosa, 158
Aletris lutea, 11, 165
Aletris obovata, 159
Allium allegheniense, 11, 165
Allium keeverae, 11, 157, 165
Allium sp. 1, 11, 157
Allium tricoccum, 158
Alnus crispa, 11, 169
Alnus incana ssp. rugosa, 159
Alnus viridis ssp. crispa, 169
Amaranthus pumilus, 11
Amblystegium humile, 140
Amelanchier sanguinea, 103
Amorpha confusa, 11
Amorpha georgiana, 11
Amorpha schwerinii, 103
Ampelopsis cordata, 103
Amphicarpum amphicarpon, 103
Amphicarpum muehlenbergianum, 11, 169
Amphicarpum muhlenbergianum, 169
Amphidium mougeotii, 141
Anacamptodon splachnoides, 141
Anaptychia crinalis, 96
Anastrophyllum saxicola, 169
Andreaea rothii, 141
Andreaea rupestris, 141
Andropogon arctatus, 103
Andropogon mohrii, 12, 165
Andropogon perangustatus, 103
Andropogon tracyi, 103
Andropogon virginicus var. decipiens, 103
Anemone berlandieri, 12
Anemone canadensis, 159
Anemone caroliniana, 12
Anemone minima, 103, 169
Aneura sharpii, 91
Angelica atropurpurea, 103
Anomobryum julaceum, 141
Antennaria howellii ssp. petaloidea, 104
Antennaria virginica, 159
Anthenantia rufa, 104
Anthoxanthum hirtum, 169
Anticlea glauca, 12
Anzia americana, 96
Anzia ornata, 96
Aphanorrhagma serratum, 79
Arabidopsis lyrata ssp. lyrata, 104
Arabis adpressipilis, 12, 169
Arabis patens, 12
Arabis pycnocarpa var. adpressipilis, 169
Aralia hispida, 159
Aralia nudicaulis, 156
Archidium donnellii, 79
Archidium ohioense, 141
Archidium tenerrimum, 79
Arenaria lanuginosa var. lanuginosa, 12
Arethusa bulbosa, 12
Arisaema stewardsonii, 104, 164, 165
Aristida condensata, 12
Aristida simpliciflora, 12
Aristida tenuispica, 13
Aristida virgata, 156
Arnoglossum ovatum var. lanceolatum, 13
Aronia prunifolia, 104
Arthonia kermesia, 157
Arthonia kermesina, 151
Arthopyrenia betulicola, 152, 164
Arthotheliopsis floridensis, 152
Asclepias cinerea, 13, 165
Asclepias longifolia, 104
Asclepias michauxii, 159
Asclepias obovata, 159
Asclepias pedicellata, 13
Asclepias perennis, 159
Asclepias purpurascens, 13
Asclepias tomentosa, 104
Asemeia grandiflora, 13
Aspiromitus adscendens, 151
Aspiromitus appalachianus, 96
Asplenium bradleyi, 13
Asplenium heteroresiliens, 13
Asplenium monanthes, 13
Asplenium montanum, 156
Asplenium pinnatifidum, 13
Asplenium resiliens, 104
Asplenium ruta-muraria var. cryptolepis, 14
Asplenium septentrionale, 159
Asplenium trichomanes ssp. quadrivalens, 159
Asplenium x trudellii, 159
Astomum ludovicianum, 169
Astragalus distortus var. distortus, 159
Astragalus michauxii, 14
Athyrium angustum, 14
Atrichum altecristatum, 141
Atrichum cylindricum, 141
Atrichum tenellum, 141
Baccharis angustifolia, 104
Baccharis glomeruliflora, 14, 165

Bacopa caroliniana, 14
Bacopa innominata, 14
Bacopa rotundifolia, 14
Balduina atropurpurea, 14
Baptisia aberrans, 14, 169
Baptisia alba, 14
Baptisia albescens, 105
Baptisia australis var.
aberrans, 169
Baptisia bracteata, 15
Baptisia perfoliata, 159
Barbilophozia attenuata, 169
Barbilophozia barbata, 91
Barbilophozia hatcheri, 91
Barbula indica var. *indica*,
141
Bartonia paniculata ssp.
paniculata, 105
Bartonia verna, 105
Bartonia virginica, 156
Batis maritima, 159
Bazzania nudicaulis, 91
Bellibarbula recurva, 79
Berberis canadensis, 15
Berchemia scandens, 156
Berlandiera pumila var.
pumila, 159
Betula cordifolia, 15
Bidens mitis, 105
Bidens trichosperma, 15
Bigelowia nudata ssp.
australis, 169
Bigelowia nudata var.
australis, 105, 169
Blindia acuta, 142
Boechera burkii, 105
Boechera missouriensis, 169
Boltonia asteroides var.
glastifolia, 15
Borodinia missouriensis, 15,
165, 169
Bothriochloa saccharoides,
159
Botrychium
angustisegmentum, 15,
169
Botrychium lanceolatum var.
angustisegmentum, 169
Botrychium matricariifolium,
15
Botrychium simplex var.
simplex, 15
Bouteloua curtipendula var.
curtipendula, 15, 165
Boykinia aconitifolia, 105
Brachelyma subulatum, 142
Brachydontium trichodes, 79
Brachyelytrum aristosum,
105, 164
Brachymenium andersonii,
169
Brachymenium systylium, 79
Brachytheciastrum
velutinum, 142, 169
Brachythecium acuminatum
var. *cyrtophyllum*, 142
Brachythecium oedipodium,
142
Brachythecium plumosum,
169
Brachythecium populeum,
169
Brachythecium reflexum, 142
Brachythecium rotaeanum,
80
Brachythecium rutabulum,
142
Brachythecium salebrosum,
142
Brachythecium velutinum,
169
Brasenia schreberi, 156
Bromus ciliatus, 16, 165
Bromus kalmii, 159
Bromus latiglumis, 16
Bromus nottowayanus, 105
Brothera leana, 142
Bruchia brevifolia, 80
Bruchia carolinae, 80
Bruchia fusca, 80
Bruchia hallii, 80
Bruchia ravenelii, 142
Bruchia texana, 143
Bryhnia novae-angliae, 143
Bryocrumia vivicolor, 80
Bryoerythrophyllum
ferruginascens, 80
Bryoerythrophyllum
inaequalifolium, 80
Bryoerythrophyllum
recurvirostrum, 143
Bryoxiphium norvegicum, 80
Bryum limbatum, 80
Bryum riparium, 80
Buchnera americana, 16
Buckleya distichophylla, 16
Bulbostylis warei, 16
Burmannia biflora, 105
Buxbaumia aphylla, 81
Buxbaumia minakatae, 81
Calamagrostis cainii, 16
Calamagrostis canadensis
var. *canadensis*, 16, 165
Calamagrostis porteri, 16,
169
Calamagrostis porteri ssp.
porteri, 169
Calamovilfa brevipilis, 106
Callitriche terrestris, 16
Calopogon multiflorus, 16
Calopogon tuberosus var.
tuberosus, 156
Caltha palustris var.
palustris, 17
Calystegia spithamea ssp.
stans, 169
Camassia scilloides, 17
Campanula americana, 169
Campanula aparinoides var.
aparinoides, 169
Campanula rotundifolia, 17
Campanulastrum
americanum, 169
Campanulatum
americanum, 156
Campylopus stellatum, 81
Campylopus atrovirens var.
atrovirens, 81
Campylopus carolinae, 81
Campylopus oerstedianus, 81
Campylopus paradoxus, 81
Campylostelium saxicola,
143
Canoparmelia amabilis, 165
Cardamine bulbosa, 156
Cardamine clematitidis, 17
Cardamine dissecta, 17
Cardamine douglassii, 17,
165
Cardamine longii, 17
Cardamine micranthera, 17
Cardamine rotundifolia, 17,
165
Carex albursina, 106
Carex amplisquama, 17
Carex aquatilis, 164, 169
Carex aquatilis var.
substricta, 18, 164, 169
Carex arctata, 18, 165

Carex argyrantha, 18
Carex austrodeflexa, 18
Carex australucorum, 165
Carex baileyi, 18
Carex barrattii, 18
Carex basiantha, 18, 165
Carex biltmoreana, 106
Carex brevior, 160
Carex bromoides ssp.
montana, 106
Carex bushii, 18
Carex buxbaumii, 18
Carex calcifugens, 18, 165
Carex canescens var.
disjuncta, 169
Carex careyana, 18
Carex chapmanii, 106
Carex cherokeeensis, 19, 165
Carex collinsii, 106
Carex conjuncta, 160
Carex conoidea, 19, 165
Carex cristatella, 19, 166
Carex crus-corvi, 19
Carex decomposita, 19, 166
Carex deflexa, 165
Carex disjuncta, 19, 169
Carex eburnea, 19
Carex echinata ssp. *echinata*,
106
Carex emmonsii, 19
Carex exilis, 19
Carex fraseriana, 106
Carex gholsonii, 106
Carex granularis, 107
Carex hitchcockiana, 19, 166
Carex hormathodes, 20
Carex hyalinolepis, 107
Carex impressinervia, 20,
166
Carex jamesii, 20, 166
Carex lasiocarpa var.
americana, 20, 166
Carex leavenworthii, 107
Carex leptonervia, 107
Carex lupuliformis, 20
Carex lutea, 20, 157
Carex manhartii, 107
Carex meadii, 20, 166
Carex misera, 107
Carex mitchelliana, 107
Carex molestiformis, 20
Carex oklahomensis, 107
Carex oligocarpa, 20
Carex oligosperma, 20
Carex pallescens, 160
Carex pedunculata, 170
Carex pedunculata var.
pedunculata, 20, 170
Carex pellita, 21, 164
Carex polymorpha, 160
Carex projecta, 21
Carex purpurifera, 21, 166
Carex radfordii, 21
Carex reniformis, 21
Carex roanensis, 21
Carex ruthii, 107
Carex socialis, 21
Carex sp. 2, 21
Carex sp. 3, 160
Carex sp. 4, 108, 164
Carex sparganioides, 108
Carex superata, 21, 166
Carex tenax, 21
Carex tenera, 108, 170
Carex tenera var. *tenera*, 170
Carex torta, 156
Carex trichocarpa, 22, 166
Carex trisperma, 22
Carex turgescens, 108
Carex utriculata, 22, 166
Carex verrucosa, 22
Carex vesicaria, 22, 166
Carex vestita, 22, 166
Carex woodii, 108
Carya laciniosa, 22
Carya myristiciformis, 22
Castilleja coccinea, 155
Caulophyllum giganteum, 22,
166
Celastrus scandens, 22
Celtis occidentalis, 108
Cephalozia connivens var.
bifida, 170
Cephalozia macrostachya
ssp. *australis*, 170
Cephalozia pleniceps var.
caroliniana, 170
Cephalozia pleniceps var.
pleniceps, 91
Cephaloziella hampeana, 91
Cephaloziella massalongi,
170
Cephaloziella massalongoi,
148, 170
Cephaloziella obtusilobula,
148
Cephaloziella spinicaulis, 91
Cerastium nutans, 108
Ceratiola ericoides, 160
Ceratophyllum australe, 23
Ceratophyllum echinatum,
108
Cetraria arenaria, 97
Cetrelia cetrarioides, 97
Chamaecrista nictitans var.
aspera, 160
Chamaedaphne calyculata,
156
Chamaelirium luteum, 158
Chamaenerion angustifolium
ssp. *circumvagum*, 23, 170
Chamaepericlymenum
canadense, 160, 170
Chamerion platyphyllum, 170
Chasmanthium nitidum, 23
Chasmanthium sessiliflorum
var. *sessiliflorum*, 165
Cheilanthes feei, 160
Cheilolejeunea discoidea, 91,
170
Cheilolejeunea evansii, 91
Cheilolejeunea myriantha,
170
Cheilolejeunea rigidula, 91
Chelone cuthbertii, 23
Chelone obliqua var.
erwiniae, 23
Chelone obliqua var. *obliqua*,
23
Chenopodium simplex,
170
Chenopodium foggii, 23
Chenopodium simplex, 23,
170
Chiloscyphus appalachianus,
170
Chiloscyphus muricatus, 170
Chrysoma pauciflosculosa,
23
Chrysopogon pauciflorus,
108
Chrysopsis trichophylla, 108
Chrysosplenium americanum,
109
Cinna latifolia, 109
Cirriphyllum piliferum, 81
Cirsium carolinianum, 23
Cirsium lecontei, 24
Cirsium nuttallii, 24

Cladina evansii, 152, 170
Cladium mariscoides, 109, 164, 165
Cladonia evansii, 170
Cladonia psoromica, 97, 157, 166
Cladrastis kentukea, 109
Cleistesiopsis bifaria, 109
Cleistesiopsis divaricata, 109
Cleistesiopsis oricamporum, 109
Cleistocarpidium palustre, 81
Clematis catesbyana, 24
Clematis crispa, 156
Clematis occidentalis, 24, 170
Clematis occidentalis var. *occidentalis*, 24, 170
Clematis ochroleuca, 155
Clematis reticulata, 160
Clematis vinacea, 160
Clematis virginiana, 155
Clinopodium georgianum, 24
Coeloglossum viride var. *virescens*, 170
Coelorachis cylindrica, 170
Coelorachis rugosa, 109
Collinsia verna, 160
Collinsonia tuberosa, 24, 166
Collinsonia verticillata, 24, 166
Cololejeunea ornata, 91
Comptonia peregrina, 109, 155
Conioselinum chinense, 24
Convolvulus stans, 110, 169
Coptis trifolia, 24, 170
Coptis trifolia var. *groenlandica*, 170
Corallorrhiza maculata var. *maculata*, 24
Corallorrhiza odontorrhiza, 110
Corallorrhiza wisteriana, 25
Coreopsis aristulata, 25, 157, 166
Coreopsis delphiniifolia, 110
Coreopsis gladiata, 156
Coreopsis grandiflora var. *grandiflora*, 25
Coreopsis integrifolia, 160
Coreopsis latifolia, 110
Coreopsis palustris, 25
Coreopsis pubescens var. *robusta*, 110
Coreopsis rosea, 160
Cornus asperifolia, 170
Cornus canadensis, 170
Cornus racemosa, 170
Corydalis micrantha, 25
Coryphopteris simulata, 25, 172
Coscinodon cribrosus, 81
Crataegus aestivalis, 110
Crataegus coccinea, 25
Crataegus munda var. *munda*, 25
Crataegus oreophila, 110, 157
Crataegus pallens, 25, 166
Crataegus pexa, 110
Crataegus schuettei, 110
Crataegus senta, 25
Crataegus spathulata, 111
Crataegus succulenta, 170
Crataegus succulenta var. *succulenta*, 26, 170
Crinum americanum, 170
Crinum americanum var. *americanum*, 26, 170
Crocyanthemum bicknellii, 26
Crocyanthemum carolinianum, 26
Crocyanthemum corymbosum, 26
Crocyanthemum georgianum, 26
Crocyanthemum nashii, 26
Crocyanthemum propinquum, 26
Crocyanthemum *rosmarinifolium*, 26
Croton monanthogynus, 26
Cryphaea nervosa, 82
Cryphaea ravenelii, 143
Cuscuta cephalanthi, 27
Cuscuta coryli, 27, 156
Cuthbertia rosea, 111
Cylindrocolea rhizantha, 92
Cynanchum laeve, 111
Cynodontium schisti, 143
Cyperus dentatus, 27
Cyperus distans, 111
Cyperus engelmannii, 111, 170
Cyperus granitophilus, 27
Cyperus houghtonii, 111
Cyperus hystericinus, 111
Cyperus lecontei, 27
Cyperus odoratus var. *engelmannii*, 170
Cyperus squarrosus, 111
Cyperus subsquarrosus, 27, 171
Cyperus surinamensis, 111
Cyperus tetragonus, 27
Cyperus virens, 27, 166
Cypripedium kentuckiense, 160
Cypripedium parviflorum, 158
Cypripedium parviflorum var. *parviflorum*, 27
Cypripedium reginae, 111
Cyrto-hypnum pygmaeum, 82
Cystopteris bulbifera, 111
Cystopteris fragilis, 27
Cystopteris tennesseensis, 28
Cystopteris tenuis, 28
Dactylorhiza viridis, 28, 170
Dalea pinnata, 170
Dalea pinnata var. *pinnata*, 112, 170
Dalibarda repens, 28, 171
Danthonia epilis, 28
Dasistoma macrophylla, 160
Delphinium carolinianum ssp. *calciphilum*, 160
Delphinium exaltatum, 28, 166
Delphinium tricorne, 155
Dendrolycopodium dendroideum, 28
Dendrolycopodium hickeyi, 28
Dermisclum oulocheila, 152, 164
Deschampsia cespitosa ssp. *glauca*, 28
Desmodium cuspidatum var. *cuspidatum*, 112
Desmodium fernaldii, 29
Desmodium floridanum, 160
Desmodium ochroleucum, 29
Desmodium sessilifolium, 29
Diamorpha smallii, 112
Diarrhena americana, 29, 166
Dicentra cucullaria, 156

Dicentra eximia, 29
Dichantheium aciculare ssp. *neuranthum*, 170
Dichantheium annulum, 29, 166
Dichantheium bicknellii, 29
Dichantheium caerulescens, 29, 166
Dichantheium cryptanthum, 29
Dichantheium curtifolium, 112, 164
Dichantheium dichotomum var. *roanokense*, 112
Dichantheium erectifolium, 112
Dichantheium fusiforme, 30
Dichantheium hirstii, 30
Dichantheium linearifolium, 112
Dichantheium malacon, 112
Dichantheium neuranthum, 30, 166, 170
Dichantheium oligosanthos var. *scribnerianum*, 112
Dichantheium ovale var. *ovale*, 112
Dichantheium spretum, 30, 166
Dichantheium strigosum var. *glabrescens*, 30, 166
Dichantheium webberianum, 113
Dichelyma capillaceum, 82
Dichodontium pellucidum, 82
Dicranella rufescens, 82
Dicranella varia, 82
Dicranum bonjeanii, 143
Dicranum fuscescens, 143
Dicranum spurium, 143
Dicranum undulatum, 82
Didiplis diandra, 30
Didymodon fallax, 82
Didymodon tophaceus, 82
Didymoglossum petersii, 30
Diervilla rivularis, 30
Dionaea muscipula, 30, 158, 166
Dioscorea floridana, 160
Diphasiastrum tristachyum, 156
Diphyscium mucronifolium, 144
Diplachne maritima, 30, 170
Diplophyllum andrewsii, 148
Diplophyllum apiculatum var. *taxifolioides*, 148
Diplophyllum obtusatum, 92
Diplophyllum taxifolium var. *mucronatum*, 92
Diplophyllum taxifolium var. *taxifolium*, 149
Dirca palustris, 113
Ditrichum ambiguum, 82
Ditrichum rhynchostegium, 83
Ditrysinia fruticosa, 31, 166
Draba ramosissima, 31, 166
Drepanolejeunea *appalachiana*, 92, 166
Drosera filiformis, 170
Drosera filiformis var. *filiformis*, 31, 170
Drosera rotundifolia, 155
Dryopteris carthusiana, 113
Dryopteris cristata, 113
Dryopteris goldiana, 113
Dryopteris intermedia, 156
Dryopteris ludoviciana, 113
Dumortiera hirsuta ssp. *nepalensis*, 149
Duravia sp. 2, 113, 171
Dyschoriste humistrata, 160
Dyschoriste oblongifolia, 160
Echinacea laevigata, 31
Echinacea pallida, 31
Echinacea purpurea, 31, 166
Echinocystis lobata, 113
Echinodorus tenellum, 170
Elatine americana, 113
Elatine minima, 114
Eleocharis atropurpurea, 31
Eleocharis cellulosa, 31, 166
Eleocharis elongata, 31
Eleocharis engelmannii, 114
Eleocharis equisetoides, 114
Eleocharis erythropoda, 114
Eleocharis fallax, 31
Eleocharis halophila, 170
Eleocharis microcarpa var. *filiculmis*, 156
Eleocharis montevidensis, 32
Eleocharis palustris, 114
Eleocharis parvula, 32, 166
Eleocharis robbinsii, 32
Eleocharis rostellata, 32
Eleocharis tricostata, 114
Eleocharis uniglumis, 32, 170
Eleocharis vivipara, 32, 166
Eleocharis wolfii, 32
Elephantopus elatus, 160
Ellisia nyctelea, 160
Elodea canadensis, 114
Elodea nuttallii, 114
Elodium paludosum, 144, 170
Elymus canadensis var. *canadensis*, 114
Elymus halophilus, 32, 166, 170
Elymus riparius, 114
Elymus trachycaulus ssp. *trachycaulus*, 32
Elymus virginicus var. *halophilus*, 170
Elytraria caroliniensis var. *caroliniensis*, 160
Encalypta procera, 83
Endodeca serpentaria, 158
Enemion biternatum, 32
Entodon compressus, 83
Entodon concinnus, 83
Entodon sullivantii, 83
Entosthodon drummondii, 144
Ephebe americana, 97
Ephebe lanata, 97
Ephebe solida, 152
Ephemerum cohaerens, 83
Ephemerum spinulosum, 144
Epidendrum conopseum, 33, 170
Epidendrum magnoliae, 170
Epilobium ciliatum ssp. *ciliatum*, 33
Epilobium leptophyllum, 115
Equisetum fluviatile, 160
Equisetum sylvaticum, 160
Eragrostis frankii, 115
Eragrostis lugens, 115
Erigenia bulbosa, 33, 166
Eriocaulon aquaticum, 33
Eriocaulon compressum, 156
Eriocaulon decangulare var. *decangulare*, 156
Eriocaulon parkeri, 33
Eriocaulon ravenelii, 160
Eriocaulon texense, 33

Eriogonum tomentosum, 33
Eriophorum virginicum, 115
Eryngium aquaticum var.
ravenelii, 33
Eryngium integrifolium, 156
Eryngium yuccifolium var.
synchaetum, 115
Erythrina herbacea, 33
Erythronium americanum
ssp. harperi, 160
Eucladium verticillatum, 83
Euonymus atropurpureus,
115, 170
Euonymus atropurpureus var.
atropurpureus, 170
Eupatorium altissimum, 115

Solidago puberula var.
puberula, 172
Solidago pulchra, 134
Solidago radula, 69
Solidago rigida var.
glabrata, 172
Solidago rigida var. *rigida*,
172
Solidago rugosa var.
sphagnophila, 172
Solidago salicina, 134, 172
Solidago simulans, 69
Solidago spithamaea, 69
Solidago squarrosa, 69
Solidago tarda, 135
Solidago tortifolia, 69
Solidago uliginosa var.
uliginosa, 69
Solidago ulmifolia, 172
Solidago ulmifolia var.
ulmifolia, 69, 172
Solidago verna, 69, 168
Solidago villosicarpa, 69,
157, 168
Sparganium acaule, 70, 168,
172
Sparganium androcladum,
162
Sparganium emersum, 172
Sparganium eurycarpum, 162
Spartina pectinata, 70, 168
Spergularia marina, 135, 172
Spergularia salina, 172
Sphagnum angustifolium, 88
Sphagnum capillifolium, 88
Sphagnum contortum, 88
Sphagnum cribrosum, 147
Sphagnum cuspidatum, 156
Sphagnum fallax, 88
Sphagnum fitzgeraldii, 147
Sphagnum flexuosum, 88
Sphagnum fuscum, 88
Sphagnum henryense, 147
Sphagnum pylaesii, 89
Sphagnum russowii, 89
Sphagnum squarrosus, 89
Sphagnum strictum, 156
Sphagnum subsecundum, 89
Sphagnum subtile, 147
Sphagnum tenellum, 89
Sphagnum tenerum, 156
Sphagnum torreyanum, 89
Sphagnum warnstorffii, 89,
168
Sphenolobopsis pearsonii, 96
Sphenolobus saxicola, 96,
169
Sphenopholis intermedia, 135
Spigelia marilandica, 70
Spinulum annotinum, 162
Spiraea alba, 135
Spiraea corymbosa, 70
Spiraea latifolia, 135
Spiraea virginiana, 70
Spiranthes eatonii, 70, 168
Spiranthes floridana, 70
Spiranthes lacera var. *lacera*,
70
Spiranthes laciniata, 70
Spiranthes longilabris, 70
Spiranthes lucida, 70
Spiranthes ochroleuca, 71
Spirodela polyrrhiza, 135
Splachnum pennsylvanicum,
172
Splachnum pennsylvanicum,
89, 172
Sporobolus curtissii, 162
Sporobolus heterolepis, 71
Sporobolus neglectus, 162
Sporobolus pinetorum, 135
Sporobolus teretifolius, 71,
168
Sporobolus virginicus, 71
Stachys appalachiana, 71,
168
Stachys aspera, 135
Stachys clingmanii, 71, 164
Stachys cordata, 71
Stachys eplingii, 71, 168
Stachys hyssopifolia var.
hyssopifolia, 135
Stachys matthewsii, 71, 168
Stachys tenuifolia, 71
Steironema hybridum, 71,
171
Steironema tonsum, 72, 171
Stellaria alsine, 135
Stellaria corei, 136
Stenanthium gramineum var.
robustum, 72, 168
Stenanthium leimanthoides,
72
Stewartia ovata, 72
Sticta deyana, 98, 164
Sticta limbata, 98
Stillingia aquatica, 163
Streptopus amplexifolius var.
amplexifolius, 72
Stuckenia pectinata, 136

Stylisma aquatica, 72
Stylisma pickeringii var.
pickeringii, 72
Sullivantia sullivantii, 163
Swida asperifolia, 72, 170
Swida racemosa, 72, 170
Swida rugosa, 163
Symphyotrichum concinnum,
72, 168, 172
Symphyotrichum cordifolium,
155
Symphyotrichum
depauperatum, 73
Symphyotrichum elliottii, 136
Symphyotrichum firmum, 165
Symphyotrichum
georgianum, 73
Symphyotrichum laeve, 73
Symphyotrichum laeve var.
concinnum, 172
Symphyotrichum lanceolatum
var. *lanceolatum*, 136
Symphyotrichum
novae-angliae, 136
Symphyotrichum
oblongifolium, 73
Symphyotrichum pratense,
73, 164
Symphyotrichum rhiannon,
73, 157
Symphyotrichum shortii, 73
Symphyotrichum simmondsii,
136
Symplocarpus foetidus, 156
Synandra hispidula, 73, 168
Syngonanthus flavidulus, 136
Syntrichia ammonsiana, 89,
172
Syntrichia fragilis, 89, 172
Syntrichia papillosa, 89, 172
Syrrophodon incompletus, 90
Taxiphyllum alternans, 90
Taxiphyllum cuspidifolium,
90
Taxus canadensis, 73
Teloschistes flavicans, 98
Tetragonotheca
helianthoides, 136
Tetradontium brownianum,
90
Thalictrum cooleyi, 73
Thalictrum macrostylum, 74,
168
Thalictrum mirabile, 163
Thaspium pinnatifidum, 74,
168
Thelypteris simulata, 172
Thermopsis fraxinifolia, 74
Thermopsis mollis, 74, 168
Thermopsis villosa, 136
Thuidium allenii, 172
Thuidium alleniorum, 147,
172
Thuidium recognitum, 148
Thuja occidentalis, 136
Tiedemannia canbyi, 74, 171
Tilia americana var.
americana, 137
Tomostima reptans, 74
Torreyochloa pallida, 74, 172
Torreyochloa pallida var.
pallida, 172
Tortella flavovirens, 148
Tortula ammonsiana, 172
Tortula fragilis, 172
Tortula papillosa, 172
Tortula plinthobia, 90
Toxicodendron radicans ssp.
negundo, 163
Toxicodendron rydbergii,
163
Toxicodendron vernix, 156
Tradescantia hirsuticaulis,
137
Tradescantia virginiana, 74,
169
Trautvetteria caroliniensis,
172
Trautvetteria caroliniensis
var. *caroliniensis*, 172
Trepocarpus aethusae, 137,
164
Triadenum fraseri, 74, 170
Triadenum tubulosum, 75,
164, 170
Triantha glutinosa, 75
Trichophorum cespitosum, 75
Trichophorum planifolium,
163
Trichostema brachiatum, 75
Trichostema nesophilum, 75,
169, 172
Trichostema setaceum, 75
Trichostema sp. 1, 172
Tridens ambiguus, 75
Tridens carolinianus, 137
Tridens chapmanii, 75, 169
Tridens strictus, 75
Trientalis borealis, 75, 172
Trifolium carolinianum, 76
Trifolium reflexum, 76
Trillium catesbaei, 158
Trillium cernuum, 163
Trillium cuneatum, 158
Trillium decumbens, 163
Trillium discolor, 76
Trillium erectum, 158
Trillium flexipes, 76, 169
Trillium grandiflorum, 158
Trillium lancifolium, 163
Trillium maculatum, 163
Trillium nivale, 163
Trillium persistens, 163
Trillium pusillum var.
ozarkanum, 76
Trillium pusillum var.
pusillum, 76
Trillium pusillum var.
virginianum, 76
Trillium recurvatum, 76, 169
Trillium reliquum, 163
Trillium rugelii, 137
Trillium sessile, 76
Trillium simile, 76, 169
Triosteum angustifolium,
164, 172
Triosteum angustifolium var.
angustifolium, 137, 172
Triosteum angustifolium var.
eamesii, 137, 164
Triosteum aurantiacum var.
aurantiacum, 137
Triphora trianthophoros var.
trianthophoros, 137
Trisetum spicatum, 172
Tritomaria capitata, 151, 171
Tritomaria exsectiformis ssp.
exsectiformis, 96
Tsuga canadensis, 138, 156
Tsuga caroliniana, 138
Tuerckheimia svihlae, 148
Turritis glabra, 77
Ulmus serotina, 138
Urtica chamaedryoides, 77,
169
Urtica gracilis, 163
Usnea angulata, 98
Utricularia biflora, 156
Utricularia cornuta, 77

Utricularia floridana, 77
Utricularia foliosa, 138
Utricularia geminiscapa, 77
Utricularia macrorrhiza, 77
Utricularia minor, 77
Utricularia olivacea, 77
Utricularia resupinata, 77
Utricularia subulata, 156
Uvularia floridana, 163
Vaccinium angustifolium, 77
Vaccinium hirsutum, 138
Vaccinium macrocarpon, 77
Vaccinium myrtilloides, 163
Vaccinium oxycoccos, 163
Vaccinium sempervirens, 163
Vaccinium virgatum, 138
Valerianella umbilicata, 138
Vandenboschia boschiana, 78
Veratrum woodii, 172
Verbena hastata, 138
Verbena scabra, 138
Verbesina helianthoides, 138
Verbesina virginica var.
virginica, 139
Verbesina walteri, 78
Vernonia angustifolia var.
scaberrima, 163
Vernonia pulchella, 163
Veronica americana, 78
Veronica anagallis-aquatica,
139
Veronica scutellata, 163
Veronicastrum virginicum,
139
Viburnum obovatum, 163
Vigna luteola, 139
Viola appalachiensis, 78
Viola blanda, 155
Viola brittoniana, 139
Viola labradorica, 139
Viola tripartita, 139
Viola villosa, 139
Viola walteri, 78, 169, 172
Viola walteri var.
appalachiensis, 172
Waldsteinia fragarioides,
139, 170
Waldsteinia lobata, 78, 170
Warea cuneifolia, 78
Warnstorfia fluitans, 90
Weissia brachycarpa, 148
Weissia ludoviciana, 90, 169
Weissia muehlenbergiana,
172
Weissia muhlenbergiana,
148, 172
Weissia sharpii, 90
Woodsia appalachiana, 78
Woodsia ilvensis, 78
Xanthoparmelia monticola,
99
Xyleborus nigricans, 154,
164
Xyris baldwiniana, 156
Xyris brevifolia, 140
Xyris chapmanii, 78, 169
Xyris curtissii, 156
Xyris flabelliformis, 140
Xyris floridana, 78, 169
Xyris iridifolia, 140
Xyris jupicai, 156
Xyris scabrifolia, 79
Xyris serotina, 79, 169
Xyris smalliana, 140
Xyris sp. 1, 165
Xyris stricta, 79
Yucca aloifolia, 140
Yucca flaccida, 140
Yucca gloriosa, 79
Zannichellia palustris, 140
Zephyranthes simpsonii, 79
Zizania aquatica var.
aquatica, 140
Zygodon viridissimus var. 1,
90
Zygodon viridissimus var.
rupestris, 148
